

## Registering impacts in Pure

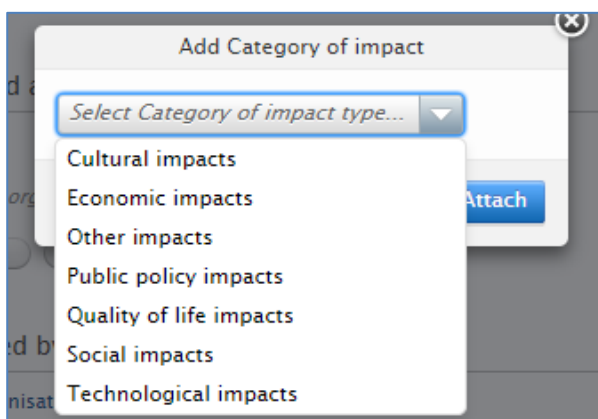

Log in to Pure at [www.sdu.dk/pure](http://www.sdu.dk/pure) . Click 'Add new item' and 'Impact'.

The impact template in Pure contains a title field, a description field and fields for impact category and impact level. The description field offers the opportunity to make a qualitative description of the impact your research has had. Other content added in Pure with relation to the impact can be added to the impact at the bottom of the template. This can be Publications, Projects, Press/media, Prizes and more.

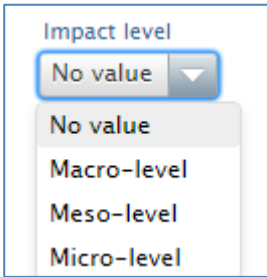

The screenshot shows the 'Impact information' form. It has a title field with a red asterisk, a description field with a red asterisk, a period section with radio buttons for 'Specific date' and 'Period of time', a category of impact section with a button 'Add Category of impact...', an impact level dropdown menu currently set to 'No value', and an associated IDs section with a button 'Add Id...'.

You can chose between different impact categories.

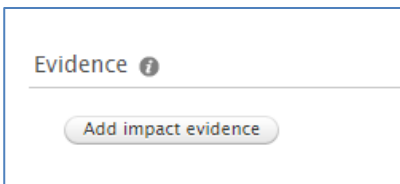

You can register the level of the impact.

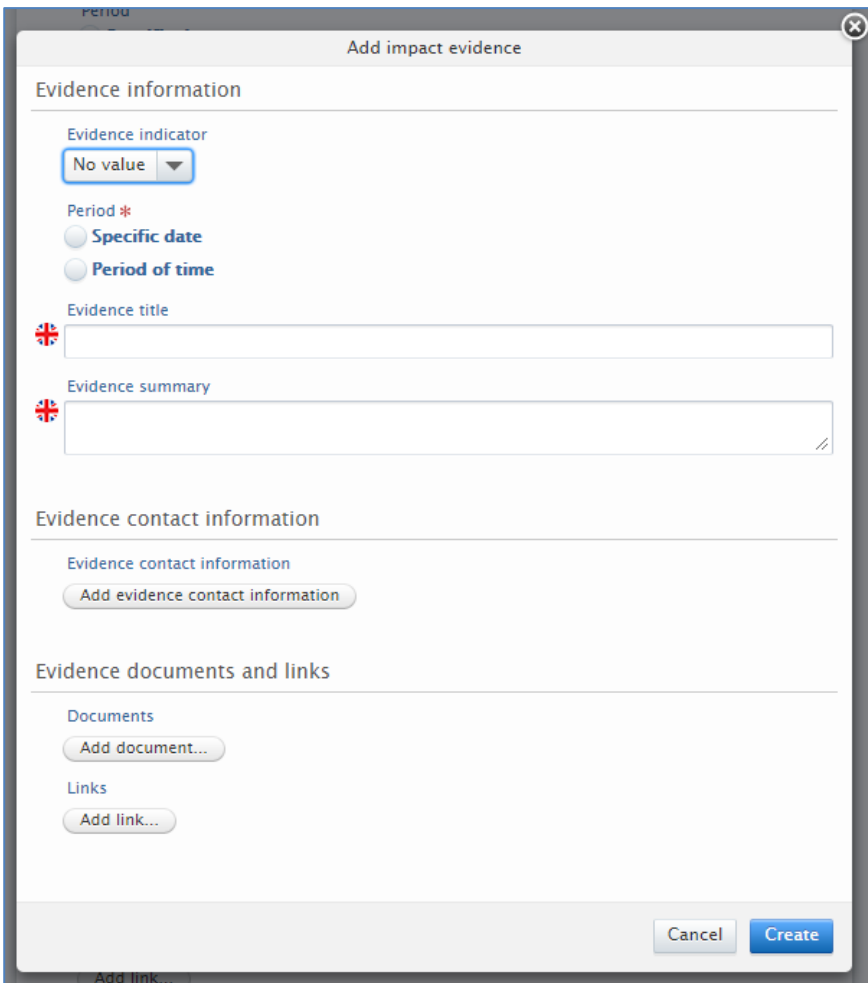

A screenshot of a dropdown menu titled "Impact level". The menu is open, showing the following options: "No value" (selected), "Macro-level", "Meso-level", and "Micro-level".

The impact template also includes the opportunity to associate evidence to the registration. Here you can choose to add documents, links and contact information.

A screenshot of a section titled "Evidence" with a help icon. Below the title is a button labeled "Add impact evidence".

A screenshot of a dialog box titled "Add impact evidence". The dialog box contains the following sections:

- Evidence information**
  - Evidence indicator: No value (dropdown)
  - Period \*:  Specific date,  Period of time
  - Evidence title:
  - Evidence summary:
- Evidence contact information**
  - Evidence contact information:
- Evidence documents and links**
  - Documents:
  - Links:

At the bottom of the dialog box are "Cancel" and "Create" buttons.
