

Introduction to Team-Based Learning

An activity by Science Education Hub SDU

TBL - A student-activating method for large class settings

Would you like to make your large-class teaching more engaging?

Team-Based Learning (TBL) is a proven, structured way to increase student activity and collaboration - even in big lecture halls.

This Science Education Hub session is **especially relevant for teachers working with large groups**, but the method can easily be adapted for smaller settings as well.

Are you...

- curious about Team-Based Learning?
- eager to loosen up your lecture hall teaching?
- ready to try something new?

Then join us for this 1.5-hour introduction:

 16 December, 14:05–15:35

 Lotte Dyrberg O'Neill, Associate Professor, SDU UP

 Location: U31 (v5-601-1)

 Sign up via Conference Manager:

Follow-up sessions

After the introduction, you can get feedback and support as you start applying TBL in your own teaching:

- **Preparing your TBL session:** 22 January, 12:00–13:00
 - **Reflecting on your teaching:** 20 February, 12:00–13:00
- Both sessions will take place online or in a room yet to be announce
