

FN'S VERDENSMÅL

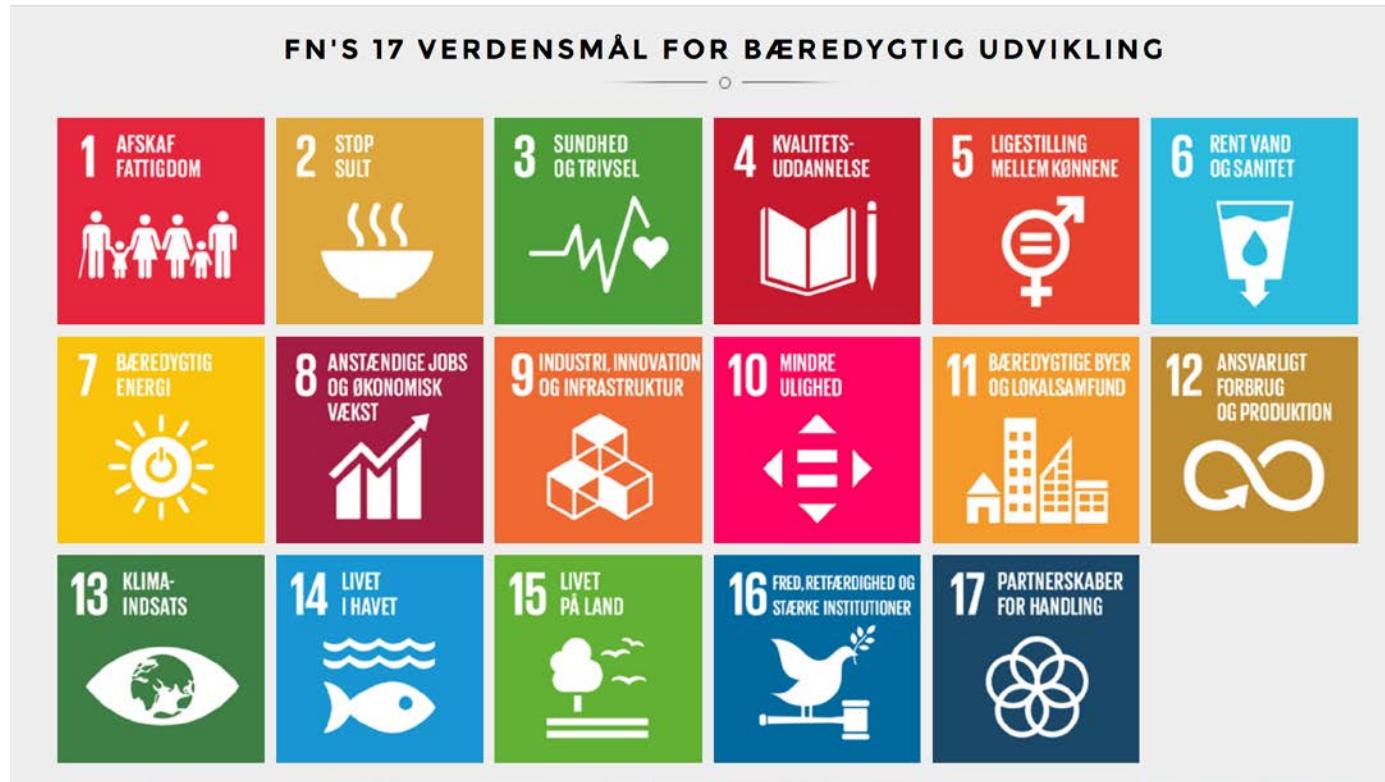

for bæredygtig udvikling

The SDG's is an integrated part of my daily life

Sara Egemose

A set of rule of thumbs and specific goals?
Q: why integrate?
A: why not?
Set themes into context and perspective

Sustainable Future

BB536

Mandatory bachelor course
4. semester at Biology (5 ECTS)

Focus on global challenges and SDG's – varying topics

Include innovation and entrepreneurship, employability

Carrier management

Company visits, external talks

Need

Knowledge

Solution

Water and waste, Biotech, robots, biosensors.....

Blå og grøn infrastruktur

Udnytte varme fra spildevand

Teknologier til vandrensning

Ekstensiv fødevareproduktion

Taghaver

Biomarkører

Biobrændsel

Ren byluft

Plantevækst i tekstilaffald

Permeabel asfalt

Droneteknologi

Søkøling

Trafikdræbte dyr

Vejbede til at nedsive regnvand

CO2-neutrale biler

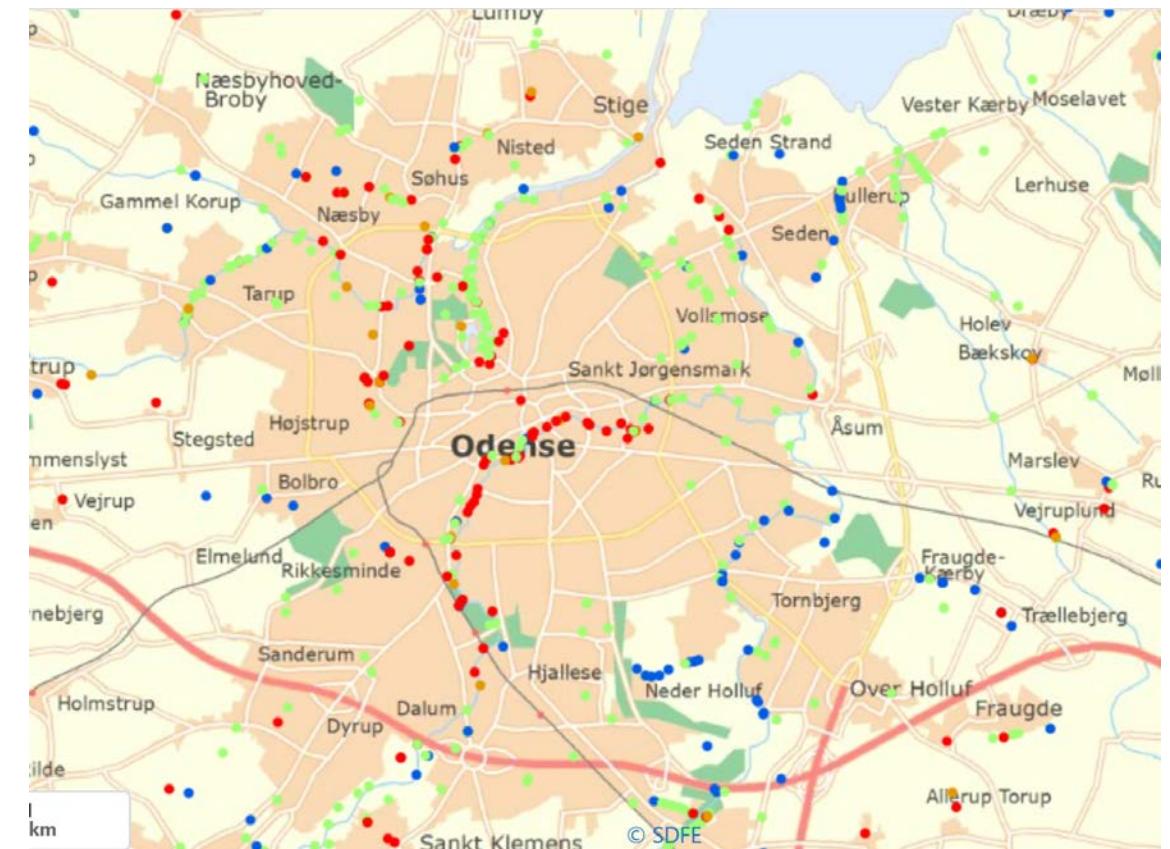

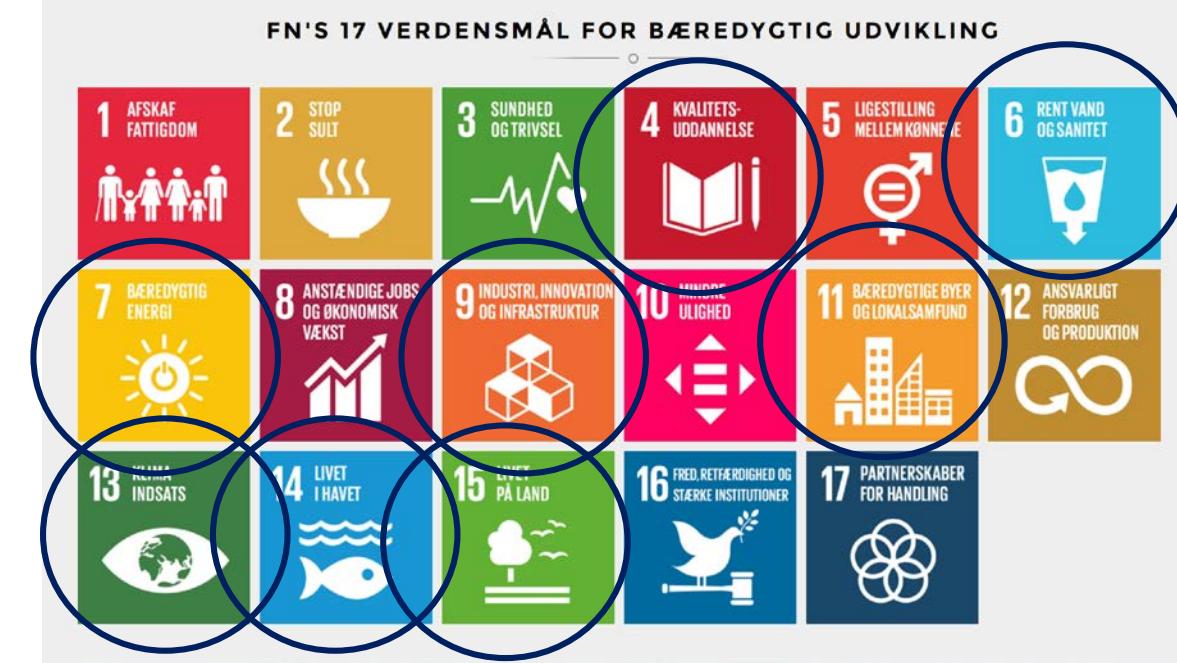

Strips til at finde fejlkoblinger

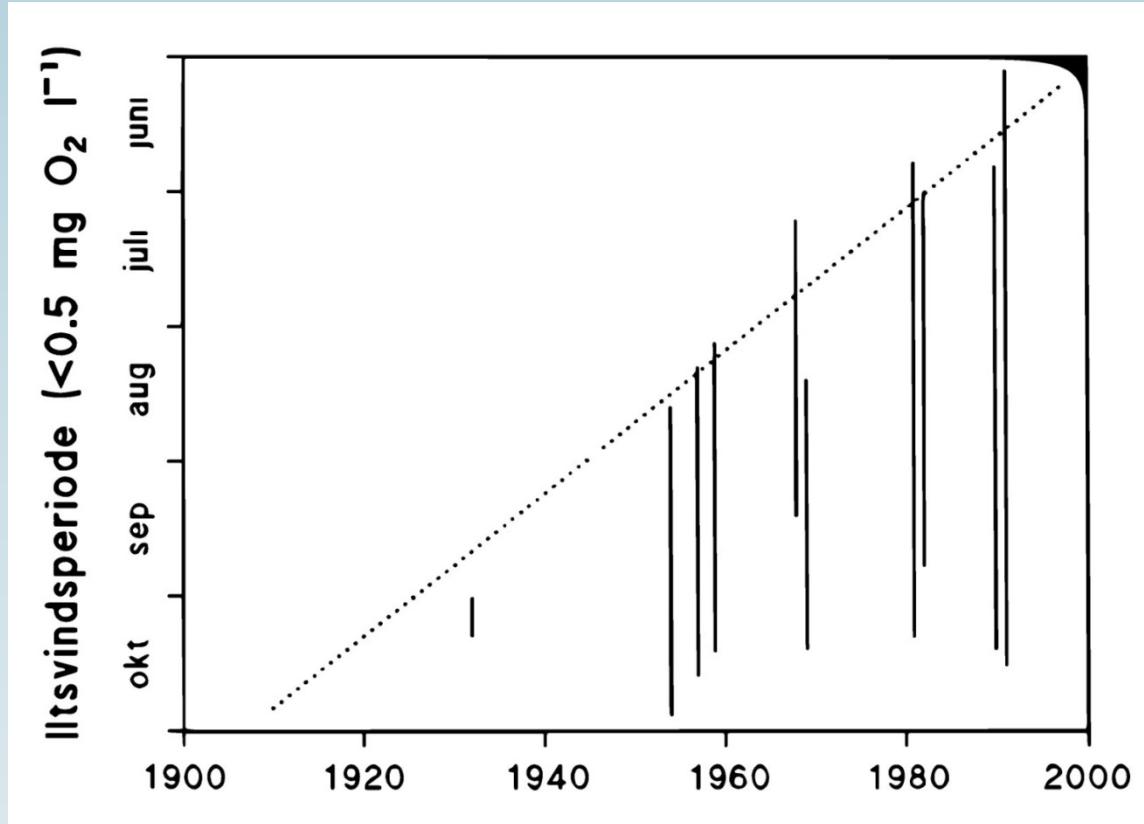

Bionedbrydeligt tyggegummi

Climate adaptation – elective master course 5 ECTS

Engagement: Set the scene – freedom in projects within a frame – evaluation on the academic output

Lake Esrom 1910

Student perspective: No cook books, fluffy terms, freedom good and bad, dependent on the individual

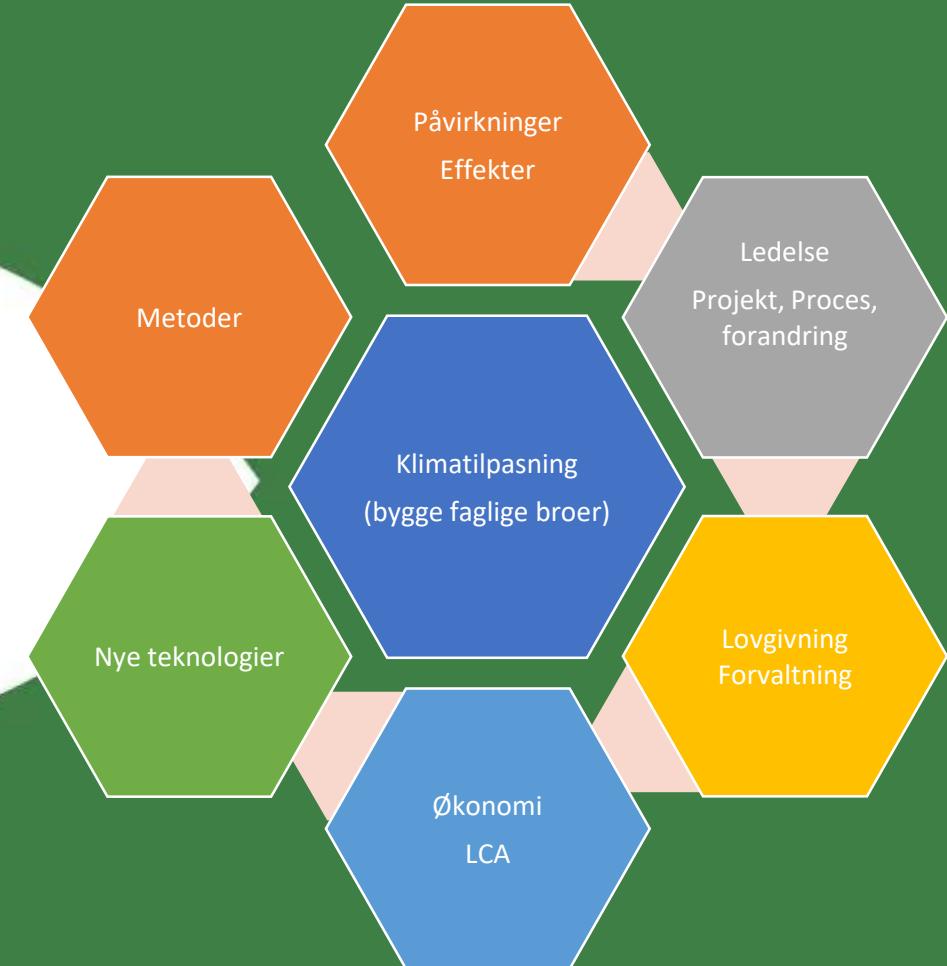

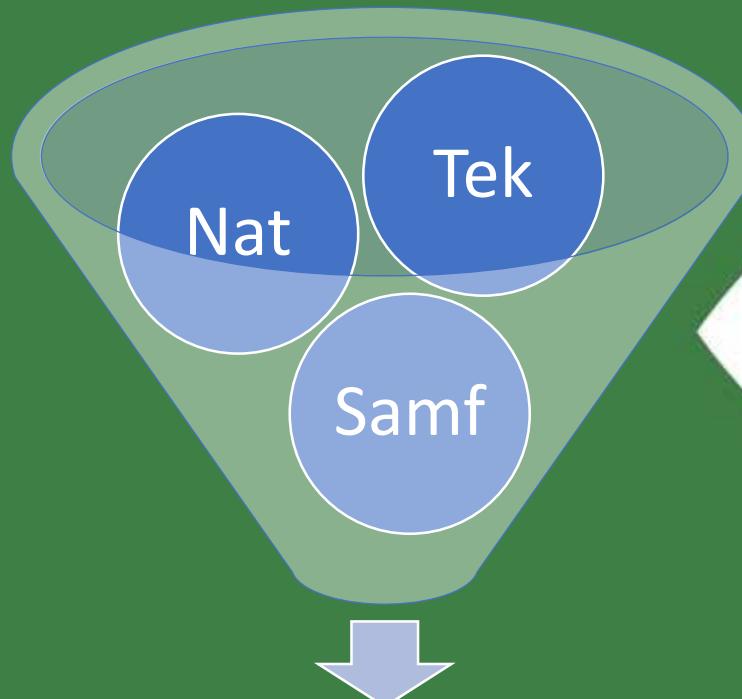

Thank you! – saege@biology.sdu.dk –

Future plans for integrating SDG's

13 KLIMA- INDSATS

6 RENT VAND OG SANITET

Mål 14: Livet i havet | Verde | verdensmål 14 – Google Søg | Find en sø - Syddansk U... + ×

https://www.sdu.dk/da/forskning/forskningsformidling/citizenscience/find-en-so

VERDENSMÅL UDDANNELSE FORSKNING NYHEDER SAMARBEJDE BIE

FIND EN SØ

Hjælp forskerne med at samle viden om vandkvalitet

→ Til folkeskoleklasser → Til gymnasieklasser

→ Til borgere → Hent Find en sø-app'e
