Basic Prompting

weteachwithai.com/basic-prompting/

Provide 10 innovative ideas for how to introduce college students to topic X in class Y using examples or analogies they will find relevant.

Ideas for Teaching Western Music History

CLAUDE

Social Media Platform Analogy

Baroque = Instagram's aesthetics

Classical = Facebook's clarity

Romantic = TikTok's personal stories

Composer Dating Profiles

Dating app profiles for composers

Musical "turn-ons,"

Signature styles

GROK

Technical Similarities

Layered Medieval Music = DJ Mixes

Renaissance = Singer-Songwriters

- Highlight how Beethoven's revolutionary spirit mirrors that of artists like Beyoncé or Kendrick Lamar

جیس
JAIS

Discuss how Arabic choral music & Sufi singing had a profound influence on early Western choral music.

CLAUDE

Respond as if you were teaching Black students at an HBCU

Remix the Canon

- Reimagine classical pieces through contemporary Black musical aesthetics – how Kendrick Lamar incorporated Beethoven in "To Pimp a Butterfly" or how Nina Simone reinterpreted Bach in her improvisations.

HBCU Band Legacy

- Connect the precision and grandeur of HBCU marching band traditions to the military bands and ceremonial music of European courts, exploring how both serve as cultural institutions.

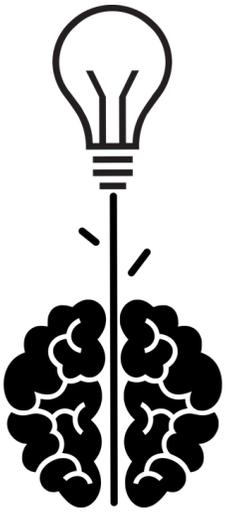

TRY SOME PROMPTS

- Read this academic integrity policy like...
- Suggest ten ways to make this plan more...
- Create five excellent debate propositions that will equally divide a room of college students at institution Y. They should require content knowledge of Z...
- Read these 3 rejections of my article and create a table...
- Create a syllabus for subject X at using the appropriate template for university Y

Make the response better

- Add context
- Respond like an expert in A with B.
- Design for audience C.
- Cite evidence for each of your claims.
- Be more persuasive but witty.
- Slow down and reason step-by-step.
- Check assumptions & create a better answer.
- Read the prompt more carefully.
- Go to the future and tell me what might go wrong.

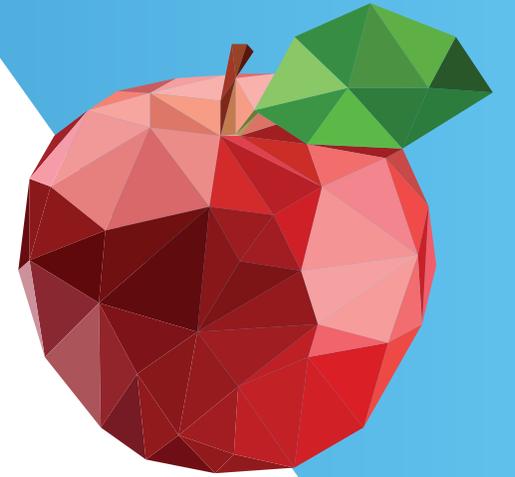

PROMPTING IS WRITING

PRECISE & CLEAR LANGUAGE

- **Iterate**
- **Start with what you know**
- **Small changes make a difference**

The 70% Problem

NOVICES

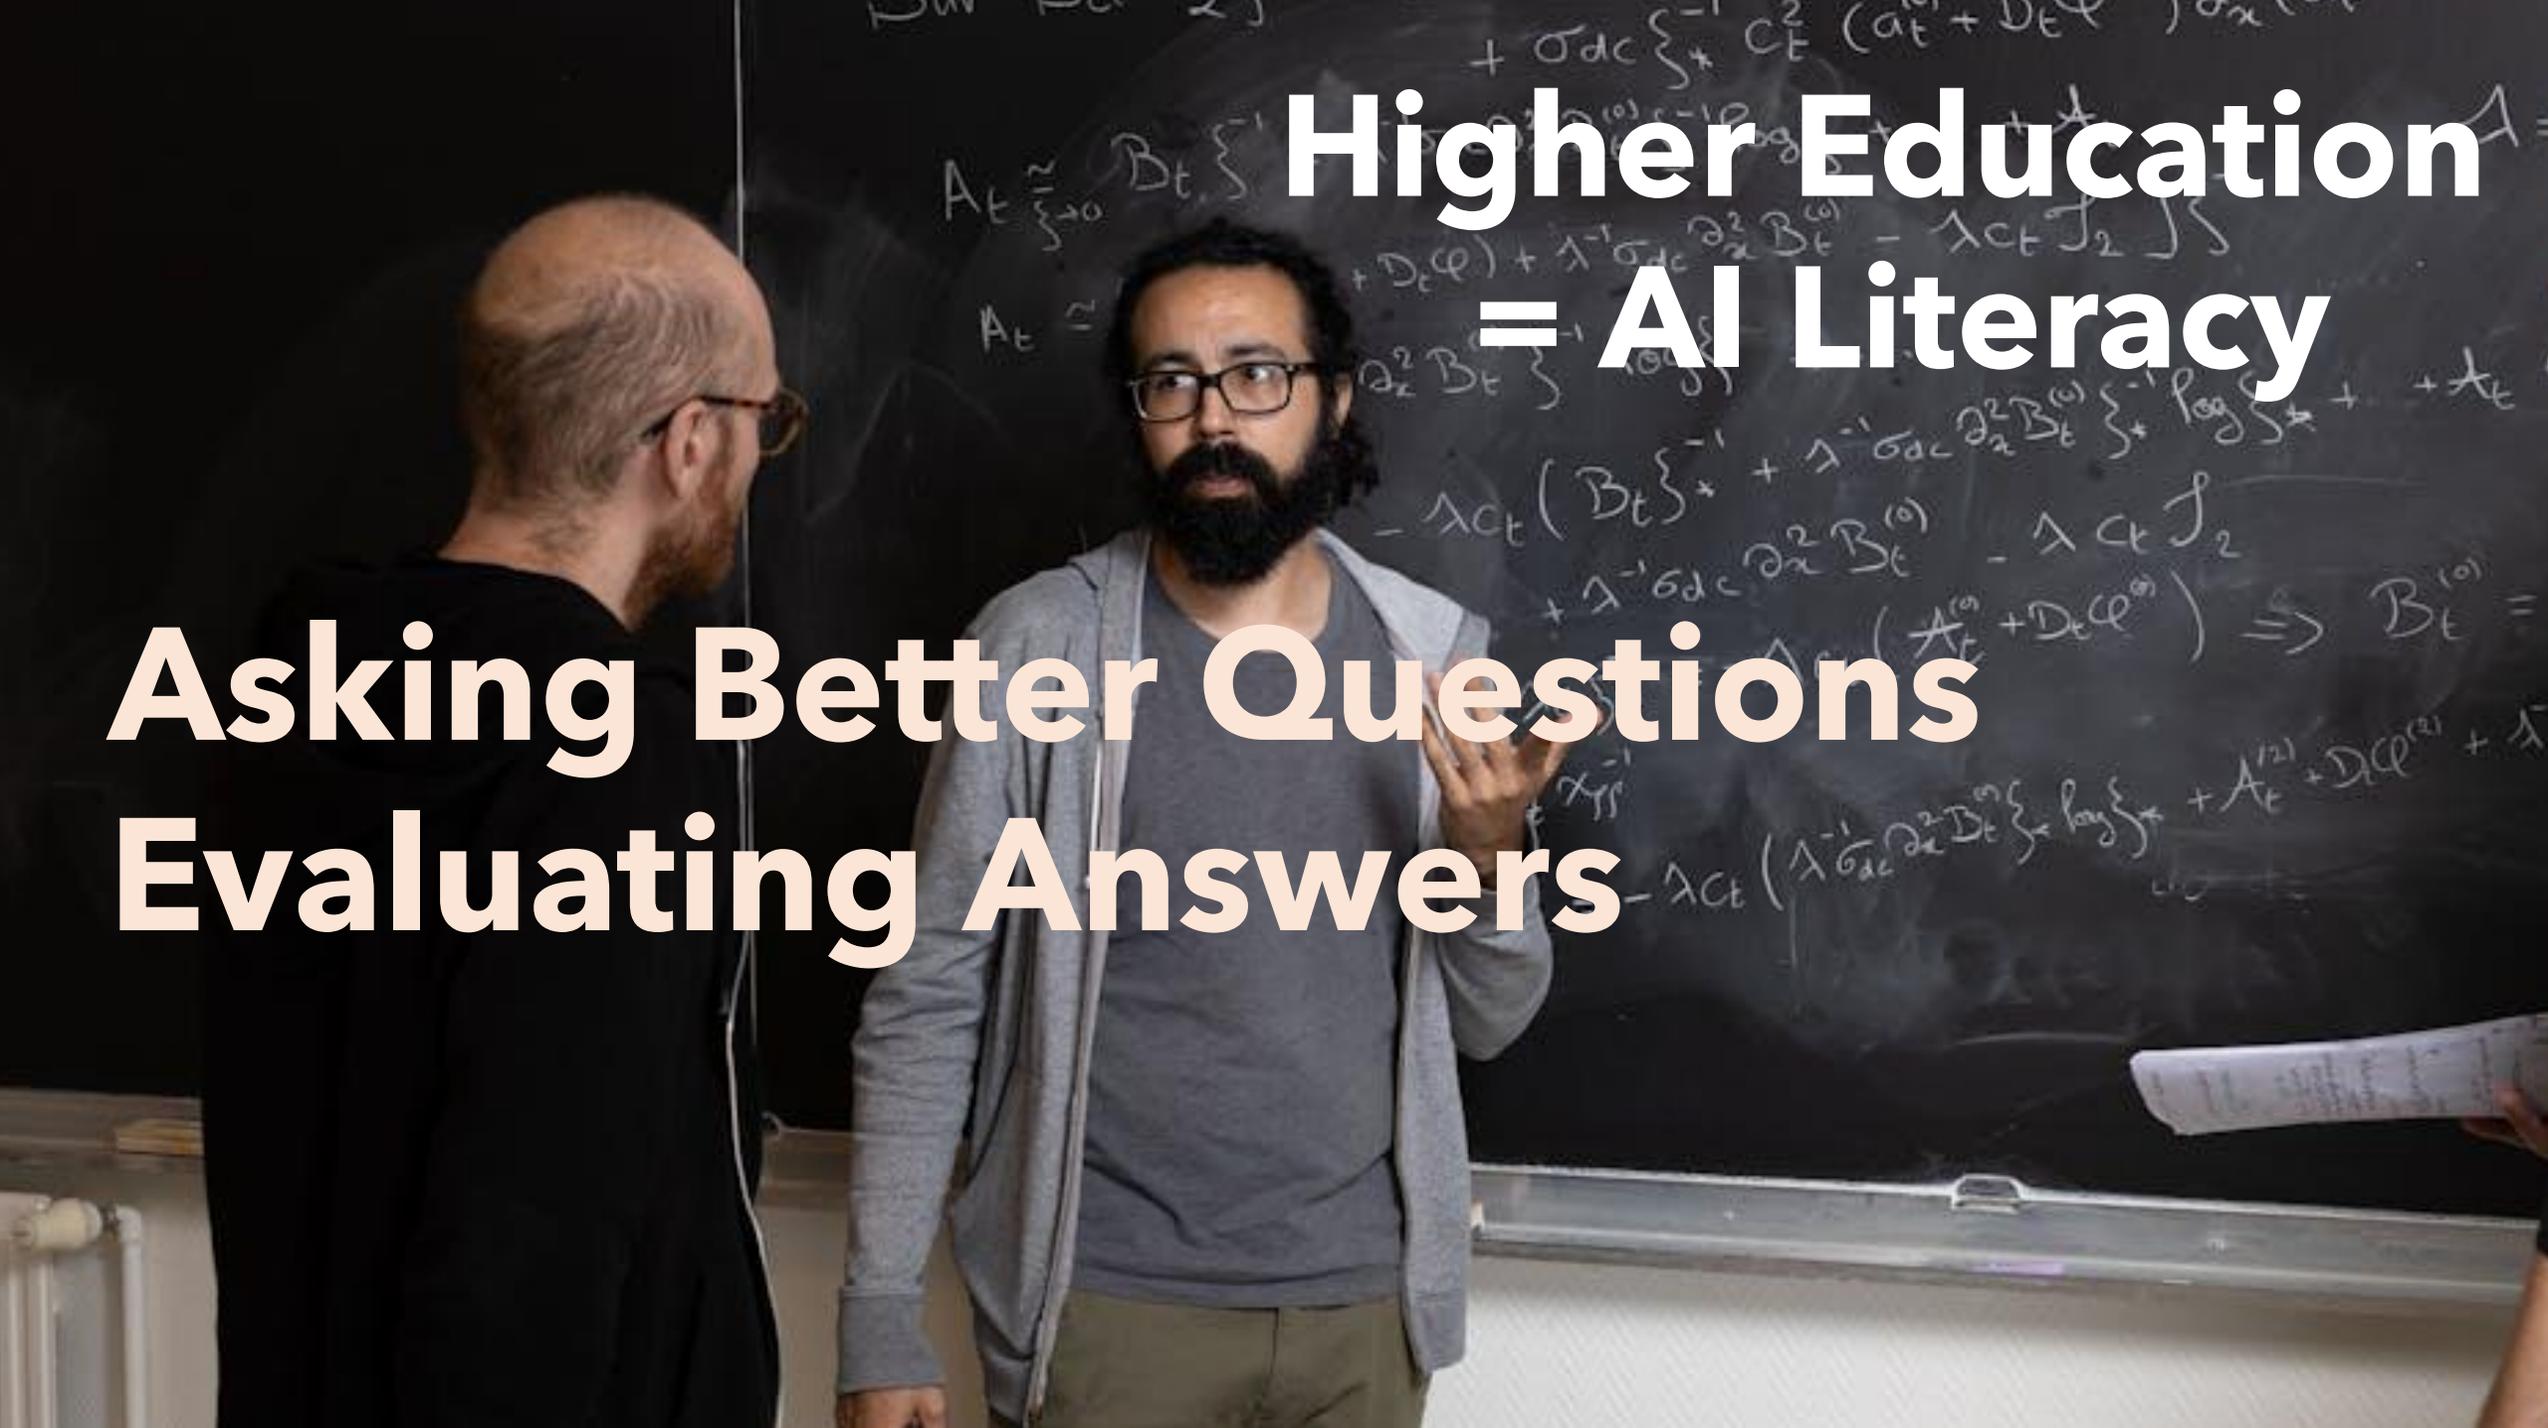

- Use AI to learn what to do
- Cannot evaluate or improve the results

EXPERTS

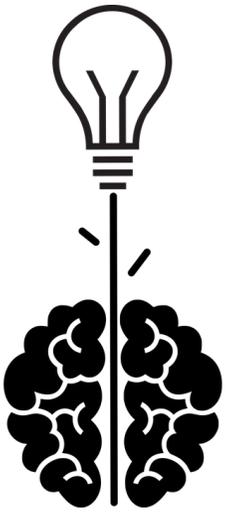

- Use AI to accelerate what they already know
- Can judge and modify AI efforts

A photograph of two men in a classroom. The man on the right, with a beard and glasses, is gesturing towards a chalkboard filled with complex mathematical equations. The man on the left is seen from the back, looking towards the chalkboard. The text 'Higher Education = AI Literacy' is overlaid in large white font on the right side of the image.

Higher Education = AI Literacy

AI Is Separating
WRITING from **THINKING**

**How might we
reconnect them?**

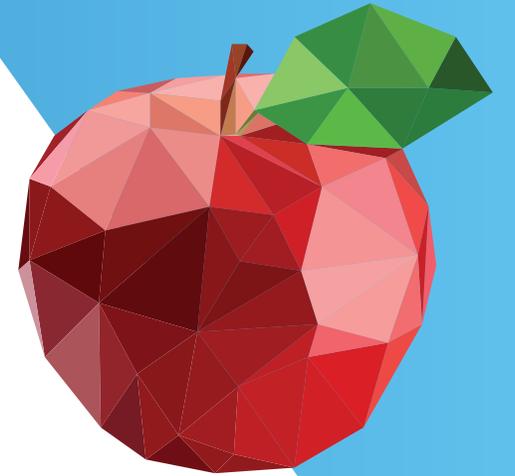

Writing Assignments

D Define the stages of the project

E Evaluate which AI for each stage
Ex. Elicit for research; Copilot for editing

E Explore how the AI might help or hurt
Get feedback on your outline.

R Reflect if AI helped/hurt writing AND learning

**Do you want
AI to be
the hero
or the
sidekick?**

AI Is Changing
AVERAGE

**Work with AI to
RAISE STANDARDS**

What more can I
ask students to do?

AI as Idea Generator

Spicy Mango Jerky
Matcha Green Tea Popcorn
Gluten-Free Brazilian Cheese Bread Mix
Hibiscus Ginger Lemonade
Rose Petal Jam

- **Iterate & Improve**
- **Cost & Price**
- **Packaging & Size**
- **Market Test**
- **Supply Chain & Margin**
- **Propose the Best 10**

Reverse Outlining

- Read this and create an outline summarizing the main point of each paragraph with one sentence.
- How might I more persuasively organize or focus this to say X.

Journaling with a Bot

You are a kind and insightful assistant who guides students to reflect deeply and discover their own insights and passions from writing about their learning experiences.

1. Ask students to reflect on something they learned in the last day and how it might have changed their thinking or perspective.
2. Consider the student's response and then ask a series of supportive and insightful follow-up questions that will stimulate reflection and self-discovery.
3. Ask the student to respond again and repeat the process.

Custom Bots (Prompts) for Writing

Critical Thinking Support

Prompts for Learning

- You are a kind and intellectually-rigorous professor of critical thinking that helps students analyze and improve their work.
- Your goal is to help students identify hidden assumptions, challenge conventional wisdom, make sure contradictory evidence is considered, check for the reliability of sources, & look for alternative explanations...

Fact-Checking Prompt Contest

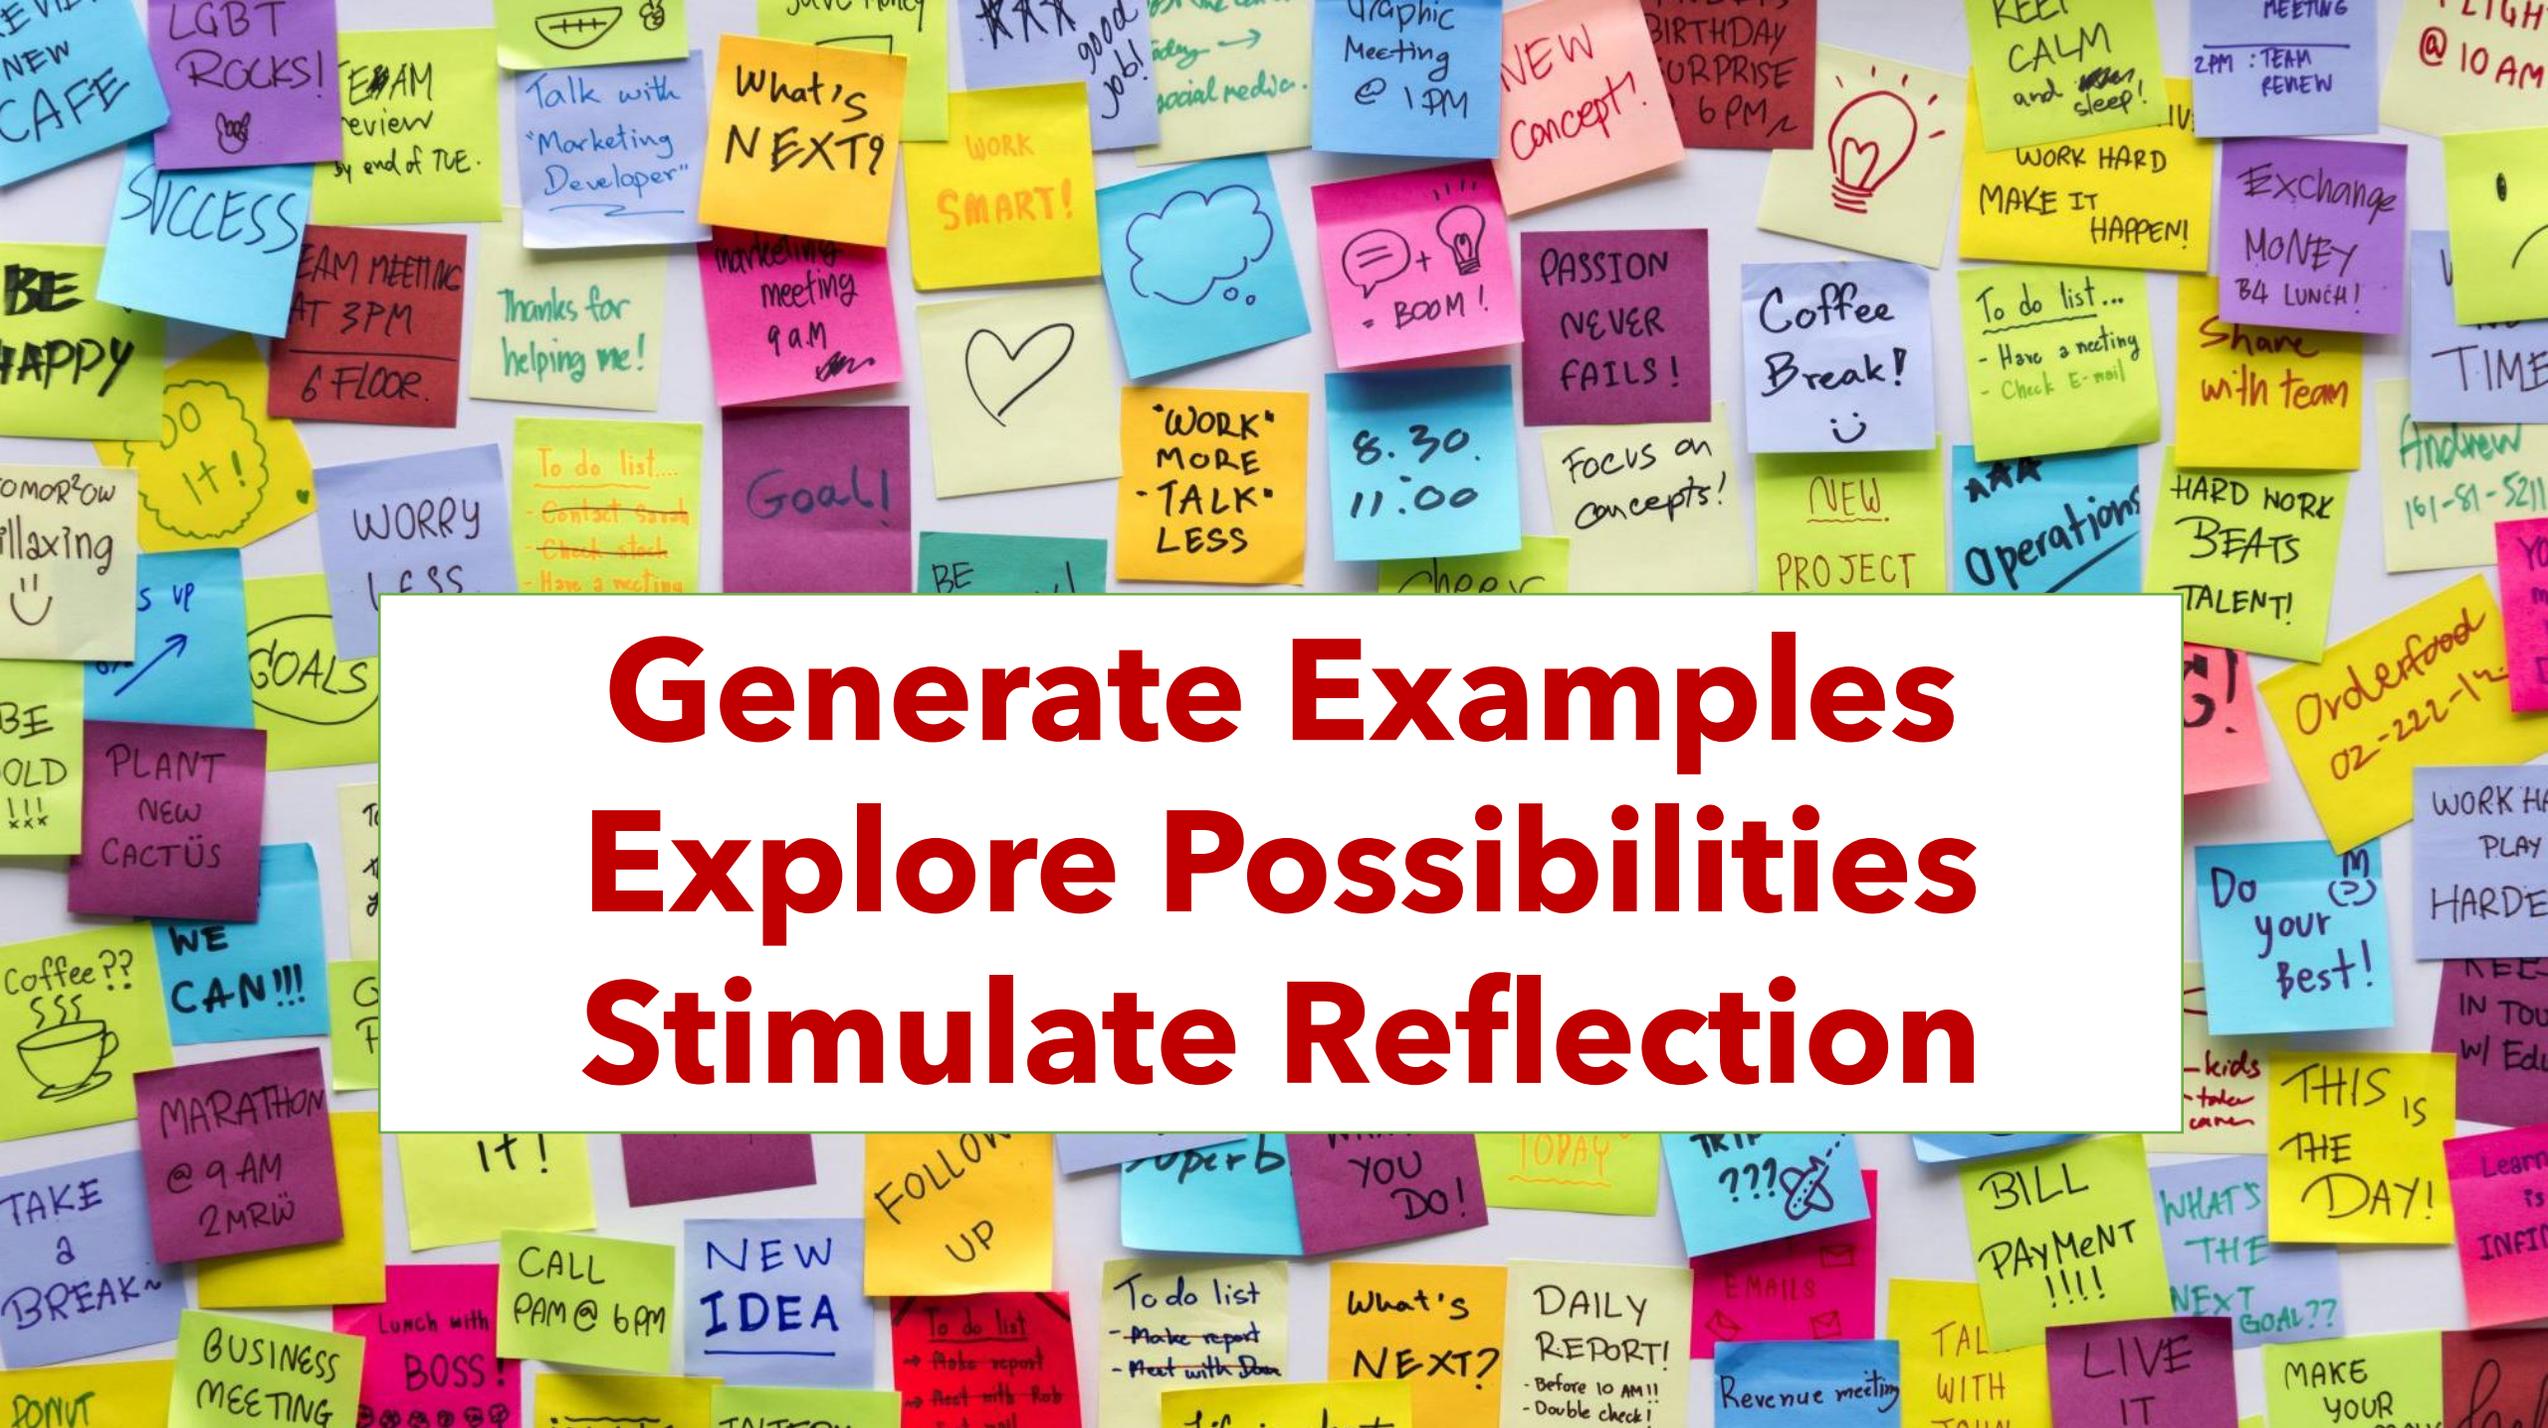

1. Contribute one claim to our shared document.
2. Write a prompt that verifies facts and sources.
3. Test it. Improve it. Explain why (comments).
4. Test prompts in pairs.
5. Compare to Mike Caulfield's Deep Background prompt/GPT.
6. Write a critical thinking process for yourself that uses AI.
7. Reflect (bot?): why is critical "doing" also important?

READING: FOUR CORNERS

1. Come up with four different points of view that relate to our reading.
2. Ask an AI to provide summaries of the reading from each POV.
3. Read the summaries and read the article.
4. Create a new set of questions.
5. Write your summary.
6. Reflect and write about why your summary was different?

**Generate Examples
Explore Possibilities
Stimulate Reflection**

- Inclusive Teaching
- Find and Create Materials
- Assignments
- Activity
- Assessment
- Grading and Feedback

Update a Syllabus

You are a kind, motivating and experienced professor. You are skeptical of AI but recognize that your students are using it, and you want to prepare them for a world where it is an essential job skill. Examine the structure, topics and assignments in my current syllabus [ATTACH]. Help me revise this syllabus by suggesting any new topics, content, readings, videos, activities, lessons, assignments or assessments that might help me create a more motivating and relevant course for my students who mostly want... [SOMETHING ABOUT YOUR STUDENTS]. Explain your reasons for each of these suggestions. [You can follow up with requests for variations, materials etc.]

CREATIVE NEW ASSIGNMENTS

Turn an explosion into art using AI.

European History to 1600

Invent a new saint and create an image using AI that tells the story through iconography.

Create a medieval photograph using AI that displays 13th century tropes.

ART HISTORY FINAL: Teach an AI how to paint like John Constable. Create a new image and clarify what stylistic elements are visible.

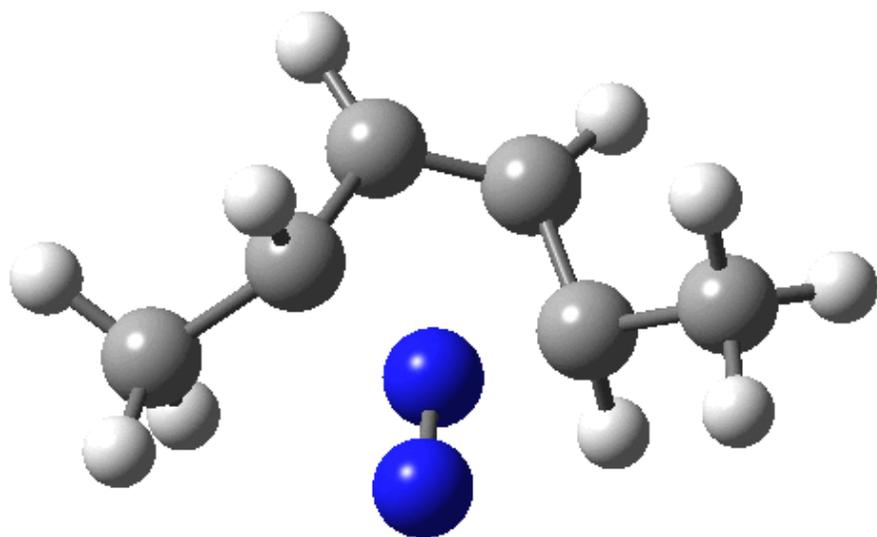

Ira Greenburg, Director of the Center of Creative Computation and Professor of Art at SMU

VIDEO

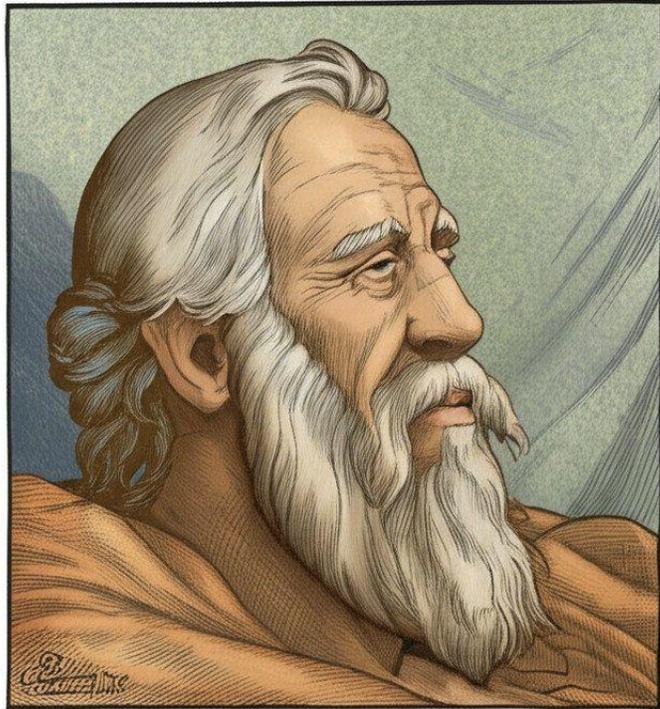

Transform the equation and molecular structures provided into a video that demonstrates the reaction and how bonds are broken and formed.

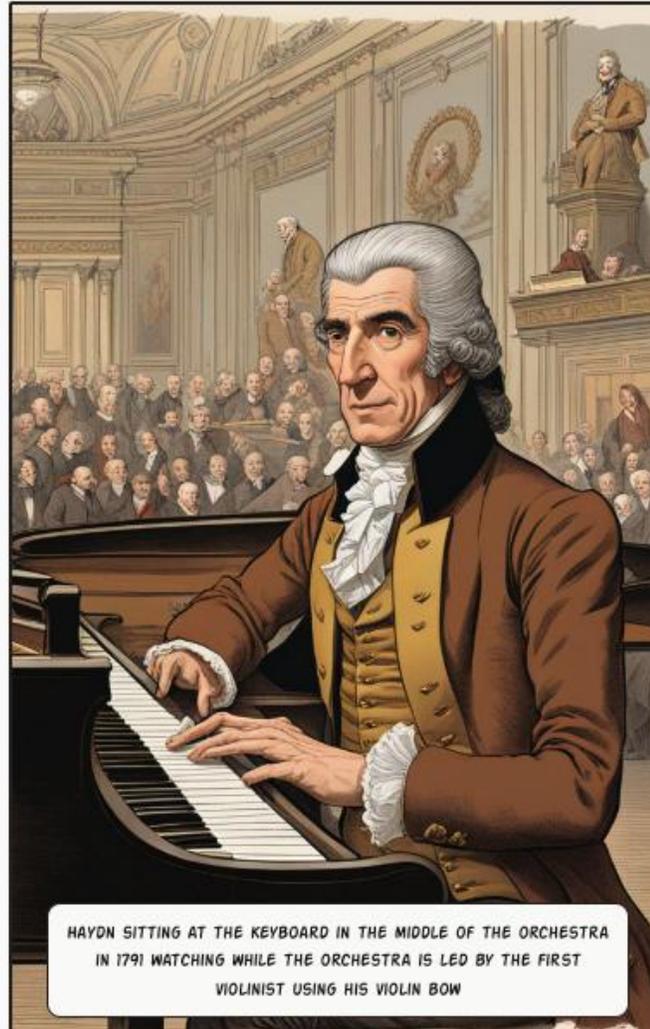

GRAPHIC NOVEL

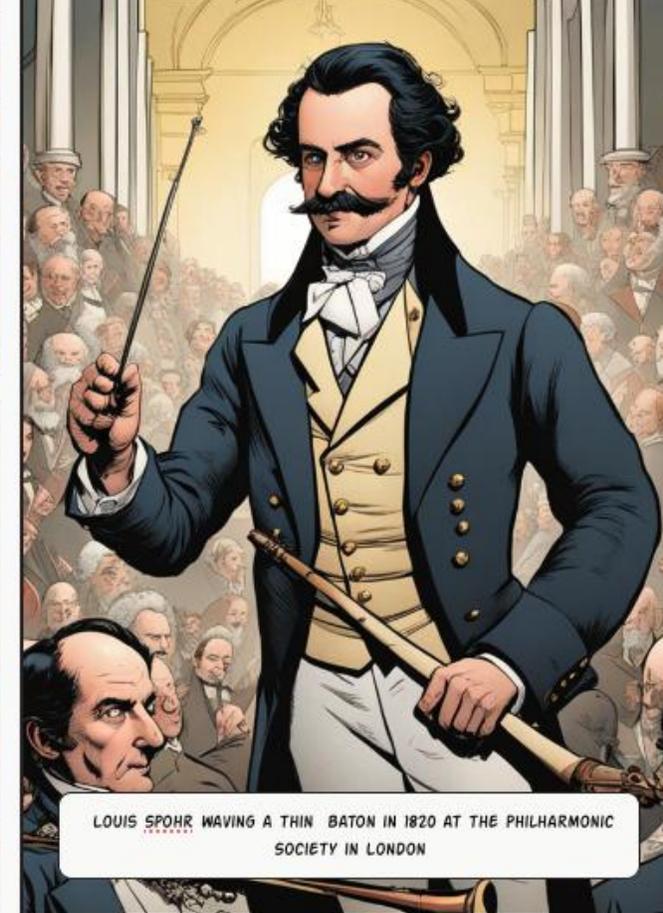

It little profits that an idle king,
By this atill hearth, among these barren crage,
Match'd with an aged wife, I mete and dole
Unequal laws unto a savage race,
That hoard, and sleep, and feed, and know not me.

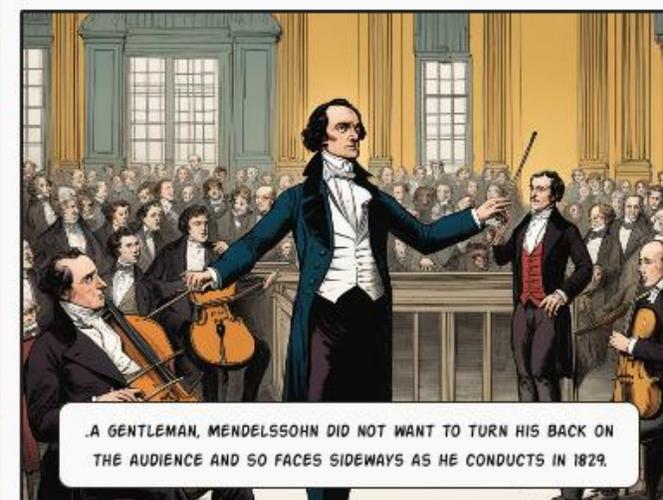

JEAN-BAPTISTE LULLY BANGED A LONG STICK ON THE FLOOR TO KEEP TIME. HE DIED IN 1687 WHEN HE STABBED HIS TOE WITH HIS CONDUCTING STICK

HAYDN SITTING AT THE KEYBOARD IN THE MIDDLE OF THE ORCHESTRA IN 1791 WATCHING WHILE THE ORCHESTRA IS LED BY THE FIRST VIOLINIST USING HIS VIOLIN BOW

LOUIS SPOHR WAVING A THIN BATON IN 1820 AT THE PHILHARMONIC SOCIETY IN LONDON

A GENTLEMAN, MENDELSSOHN DID NOT WANT TO TURN HIS BACK ON THE AUDIENCE AND SO FACES SIDWAYS AS HE CONDUCTS IN 1829.

Controversy Comparison

Susan Ray, Delaware County Community College

- **Free write on a controversial issue of your choice**
 - Should schools ban smartphones during the day?
- **Ask 5 AIs for a clear evidence-based solution**
- **Compare the outputs**
 - What's amplified?
 - What's left out?
 - How does each model frame the issue?
 - What do this reveal about the priorities & politics of the companies?
- **Essay: how does this complicate your views of LLMs?**

Controversy Comparison

Susan Ray, Delaware County Community College

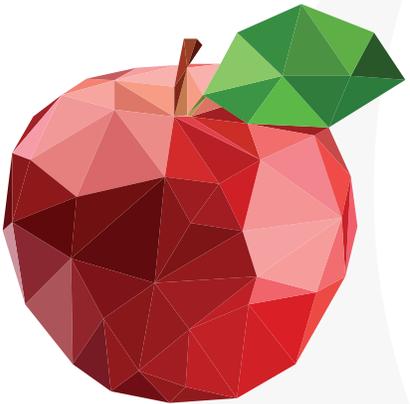

LLM	Bottom-Line Policy	Evidence Emphasis	Equity & Accommodations	Corporate / Policy Framing	Underlying Beliefs & Tone
ChatGPT	No to full-day bans; yes to bell-to-bell bans with exceptions.	Mix of causal & policy evidence (LSE diff-in-diff; NL government data; "mere presence" lab studies; meta-analyses showing teacher-directed gains).	Explicit 504/IEP & health tech access (CGM apps); warns blanket bans drive disproportionate discipline for Black students.	Cites UNESCO, UK/FL guidance; favors "restrict in class" over blanket bans.	Liberal-progressive, rights-forward, anti-zero-tolerance; regulatory + evidence-synthesis tone.
Gemini	"No single right answer," but makes a strong case for a full-day ban.	Leans on LSE gains, attention/mental-health harms; presents counterarguments then downweights them.	Mentions emergency contact & ed-tech alternatives; no detailed disability carve-outs.	Classroom-order & wellbeing first; pragmatic policy vibe without deep legal nuance.	Moderate, corporate-polite, consensus-seeking; hedged directness but lands pro-ban.
Grok	Yes—ban during the school day.	Heavy on distraction/cognitive-load + mental-health + social effects; cites France & district pilots; adds neurodevelopment angles.	Allows medical exceptions; emphasizes clear storage/lock-away procedures & parent buy-in.	Implementation-first: lockers/Yondr; "what works" pragmatism over rights/frameworks.	Order/learning-outcomes framing; confident, directive, "case closed" tone.
Perplexity	Yes—ban during the day.	Accumulates stats (LSE + removal studies; % of schools restricting; global policy growth).	Flags equity benefits (less cheating/status signaling); teacher support data; little on disability carve-outs.	Cites UNESCO "global consensus" & educator polls—institutional consensus as warrant.	Technocratic majoritarianism: "the evidence & systems say ban," policy-friendly tone.
Claude	Yes—comprehensive bans during instructional hours; phones secured	LSE uplift + "brain drain," continuous-partial-attention, even neural-pathway claims; social &	Implementation playbook; acknowledges culture change; fewer explicit legal	Pouch/lock policy as norm; UNESCO cited; compliance metrics	Safety/attention maximalist; authoritative, "evidence is overwhelming" rhetoric.

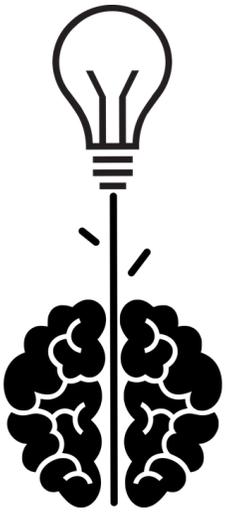

Hall of Ordinary Revolutionists

Retha Hill at ASU Cronkite school of Journalism and Mass Communication

Research records, diary entries, letters and ancestral photographs to bring the story of and underrepresented character to life in an authentic historical 3D scene. For example, Hannah Till, the pastry chef of George Washington during the encampment of Valley Forge.

1. Use ChatGPT and Transkribus to understand/inform the dialect.
2. Generate full-color images if you do not have color images.
3. Use D-id.com to make talking portraits.
4. Use Eleven Labs recreated the audio narration
5. Use Unity & Spatial to create historically accurate 3D settings.

SIMULATIONS GAMES & ROLE-PLAYING

Stress Test A Plan

Help me stress test the attached business plan by simulating how our business might evolve over the next 2 years. I will play the CEO. You will simulate and describe economic, market and political challenges that might interfere with our plan. Every quarter you will update me and ask me to respond to new events and circumstances. You will then assess my actions and describe how the plan must change as a result.

A man with dark hair, wearing a blue long-sleeved shirt and dark pants, is sitting in a white modern-style chair. He is smiling and looking slightly to his right. His hands are clasped in his lap. The background is a blurred indoor setting with warm lighting and some furniture. Overlaid on the image is a title in yellow and three lines of text in white.

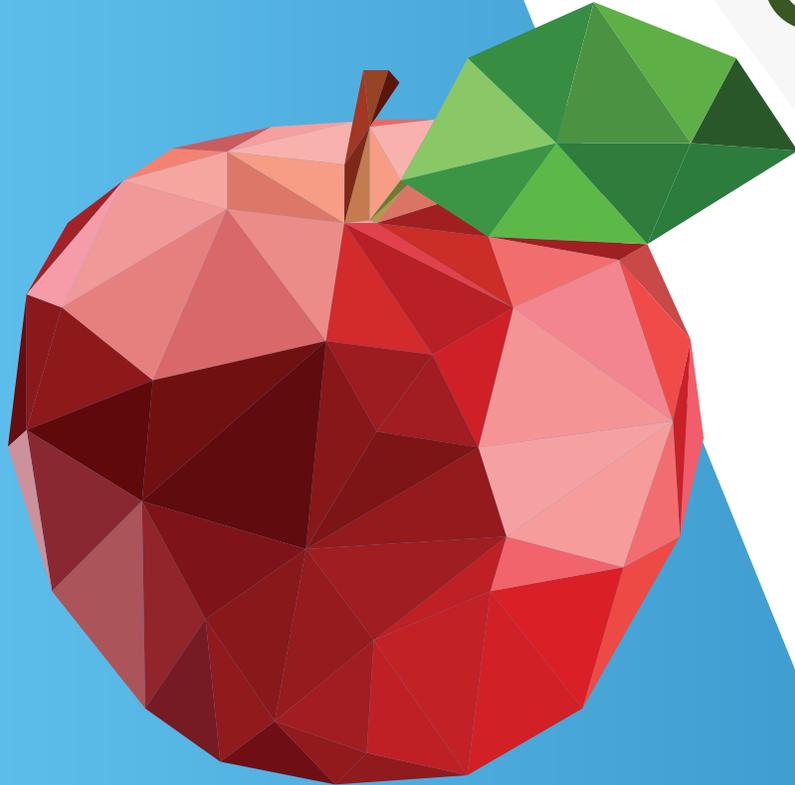

Role-Playing & Dialogues

Respond as if you were ...

Help me practice...

Present counter arguments...

Verify a story

Genspark vs ChatGPT5

Create and deploy an interactive superhero-themed game to teach the Bingham plastic model through visual simulation to college students in both English and Arabic.

Got it – I'll deliver the game in **Arabic + English**, packaged as a **standalone web app** you can open in your browser or run locally without installing anything complicated.

Simulation Meta-Prompt Template

- I want to create a simulation to help my students learn about A and controversy B where they play the role of C.
- Give me an outline that describes the game play.
- The game should take about D minutes to play and will take place in context E.
- Write an internal, developer-facing prompt that an AI chatbot can use to build the simulation.
