

Workshop: The low use of antibiotics in Norway: the case of pigs

We would like to invite you to a workshop to be held on *March 4*, co-arranged by the Follow the Pig project and the Department of Strategy and Entrepreneurship, BI, regarding antibiotics and resistance in pig production.

«Follow the Pig» is an NOS-HE granted workshop project, coordinated by Professor Debbie Harrison, BI Norwegian Business School, Professor Aino Halinen, University of Turku, Finland, Professor Alexandra Waluszewski, Uppsala University, Sweden, and Professor Kristin B. Munksgaard, University of Southern Denmark. The aim is to investigate differences in the Norwegian, Finish, Swedish and Danish pig meat production settings. This is the second workshop in a series of three.

The main goal of the workshop is to share knowledge and experiences. The workshop will take place at BI Oslo (Nydalen campus) in room **B2-070**. Welcome to the workshop!

Debbie Harrison, BI

On behalf of the organising committee

Programme

Time	Theme
