***Decoding β -Cell Dysfunction in Type 2 Diabetes:
The Impact of Post-Translational
Modifications on Insulin Secretion***

Thesis title:

Characterization of selected post-translational modifications in Type 2 Diabetes

Monday 28 October 2024 at 10 am
in BMB Seminar Room

Assessment committee:

Associate Professor Adelina Rogowska-Wrzesinska (chairman)
Department of Biochemistry and
Molecular Biology
University of Southern Denmark

Professor Phil Robinson
Children's Medical Research Institute (CMRI)

Professor Nils Billestrup
Panum Institute
University of Copenhagen

Supervisor:

Professor Martin Røssel Larsen
Department of Biochemistry and
Molecular Biology
University of Southern Denmark
