

Ph.d.-forsvar

Taewook Kang

Exploring the mechanisms of glucose stimulated insulin secretion with advanced omics technologies

28. november 2017 kl. 10.30

i BMB's seminarrum

Ph.d.-afhandling

Characterization of the Signaling Mechanism Underlying the Release of Insulin from β -Cells from Normal and db/db Mice after Brief Glucose Stimulation

Bedømmelsesudvalg

Professor Blagoy Blagoev (formand), BMB

Professor Ruedi Aebersold

Department of Biology
ETH Zürich

Professor Eugene C. Yi

Department of Molecular Medicine and Biopharmaceutical Science
Seoul National University

Vejleder

Professor Martin Røssel Larsen, BMB
