

Fratrædelsesforelæsnig

Eckhard Bick

Onsdag 12. juni 2024 kl. 13-15

Lokale: U71, reception i CML mødelokale

Tilmelding: event.sdu.dk/bick senest onsdag 5. juni 2024.

Find vej: **lokale U71** og **CML mødelokale**

CorpusEye: Supporting Your Research and Teaching with Annotated Data from Large Text Collections

The talk will demonstrate how explicit and implicit information from large, annotated text collections, e.g. social media corpora, web crawl data or literature collections, can be harnessed and statistically evaluated in an interactive, user-friendly interface (CorpusEye, <https://corp.visl.dk>).

Research examples will focus on the identification of cultural, ethnic, religious and gender stereotypes, association-based company profiling and the linguistics of hate speech, as well as distant reading methods useful for literary studies.

Program

Velkomst ved Institutleder Per Krogh Hansen

Forelæsnig ved lektor Eckhard Bick

Herefter er instituttet vært ved en reception

Med venlig hilsen
Per Krogh Hansen
Institutleder
