The Road To Freedom

In *The Road to Freedom*, Nobel Prize-winning economist Joseph E. Stiglitz dissects America's current economic system and the political ideology that shaped it, exposing their intertwined failures.

"Free" and unfettered markets have only succeeded in delivering a series of crises: **the financial crisis, the opioid crisis, and the crisis of inequality.** *The Road to Freedom* offers a deeper, more humane way to assess freedoms by reimagining our existing economic and legal systems and embracing forms of collective action.

Join us for an event that reframes how we think about freedom and the role of the state in the 21st century.

Moderated by David B. Woolner (Marist College) and Jørn Brøndal (SDU).

This event has limited seating: first come, first served - or stream it online.
