Ad 3) Information about the HPC outreach by Claudio Pica

Claudio Pica (CP) informed about a new project involving the super computer. SDU has been given 3m DKK for a project with collaborations between private companies and high schools in the region. High school teachers and students are supposed to work together with local enterprises using the super computer. Several workshops will take place where the students can present their projects. Three groups will ultimately be selected and get access to the computer. Peter Bækgaard Madsen will be hired as responsible project coordinator. The projects start August 1st.

Ad 4) Any other business
