**Abstract:**

Robin Wilson was for many years professor at the Open University.

He is now affiliated with London School of Economics.

Robin is president of the British Society for the History of Mathematics, and has wide interests.

He is the author or editor of a large number of books, including one in Danish on Sudoku!

Robin was one of the very first international visitors at IMADA 40 years ago (in the summer of 1974).

And last but not least: he is an excellent speaker!

(He visits Denmark this time to lure high school teachers to send their students to KU).
