

## **RICH Scientific Symposium – at SINATUR, Nyborg, October 8<sup>th</sup> – 9<sup>th</sup> 2014**

### **Preliminary program**

#### **Wednesday October 8<sup>th</sup>**

- 12.00        **Lunch buffet**
- 13.00        Introduction
- 13.15        **Key note speech by Professor Charles Hillman:**  
*‘Childhood health behaviors influence cognitive and brain health’*
- 14.15        PhD stud. Kristian Traberg Larsen: *‘Effects of a camp intervention in overweight children: Preliminary results from the Odense Overweight Intervention Study’*
- 14.45        PhD stud. Tao Huang: *‘Effects of physical activity on Brain-derived neurotrophic factor in children: recent findings and methodological concerns’*
- 15.15        PhD stud. Jan Chr. Brønd: *‘Comparing the Actigraph physical activity measure from AM7164, GT3X and Axivity AX3’*
- 15.45        **Coffee break**
- 16.15        PhD stud. Tina Junge: *‘Knee injuries associated to the type and amount of sport among children aged 10-15 years. A sub study of the CHAMPS-study Denmark’*
- 16.45        PhD stud. Lisbeth Runge: *‘Childhood motor performance and the longitudinal relation to physical activity and physical activity related injuries’*
- 17.15        Post doc. Anna Bugge: *‘Effects of physical activity on metabolic health and cognitive function - an upcoming follow-up and an expansion of The CHAMPS study-DK’*
- 19.30        **Dinner**

#### **Thursday October 9<sup>th</sup>**

- 07.30 – 8.30    **Breakfast**
- 09.00        **Key note speech by Assoc. Prof. Karin Pfeiffer:**  
*‘Exploring a Youth Compendium of Physical Activity’*

- 10.00 PhD stud. Jakob Tarp: ***'Epidemiological relationships between fitness, fatness and physical activity with cardiometabolic risk factors in children'***
- 10.35 PhD stud. Rodrigo A. Lima: ***'Tracking and predictors of academic achievement in children'***
- 11.10 PhD stud. Anne Kær Thorsen: ***'Aerobic exercise and cognitive function in young adults - the influence of training intensity (preliminary results)'***
- 11.45 PhD stud. Mona Have Sørensen: ***'Physical activity and cognitive functions in School-Aged Children – rationale and design of a 1-year intervention study'***
- 12.20 **Lunch buffet**
- 13.15 Assoc. Prof. Anders Grøntved: ***'A new observational study within physical activity epidemiology designed to mimic a randomized trial'***
- 13.45 PhD stud. Martin Ernst: ***'Sedentary behaviour and health in children and adolescents'***
- 14.15 Plenum discussion and closing
- 15.00 **Coffee break**
- 15.30 Advisory board meeting
