Annals of Operations Research

Special Volume: Multi Criteria Decision Making for Sustainable Development

The Annals of Operations Research seeks submissions from researchers with expertise on new developments in multi criteria decision aiding, multiobjective optimization, goal programming, and applications to sustainable development. This special volume is connected with, but not restricted to the workshop of 82nd *EURO Working Group on Multicriteria Decision Aiding workshop on* Multi Criteria Decision aiding for Sustainable Development which will be held on September 24-26, 2015 in SDU (Odense, Denmark).

The main topics of interest are:

- Advances in multi-criteria decision making
- ➤ Integrated MCDM Applications
- ➤ MCDM / MOO software development
- Multiobjective optimization
- Goal programming
- Multiple Objective Stochastic Programming
- ➤ Goal Stochastic Programming
- > Stochastic multi-criteria optimization
- Efficient global optimization
- > Stakeholders influence in the MCDM
- ➤ Application to sustainable management, environment management, finance, economics, management science, and supply chain management.

All papers submitted to the special volume will be peer-reviewed in accordance with the standard procedures of the **Annals of Operations Research (AOR)**. We expect that this edited volume will collect groundbreaking novel research on this important and challenging research topic.

Manuscript Preparation and Submission

To prepare their manuscripts, authors are asked to closely follow the AOR "Guide for Authors" at http://www.springer.com/business/operations+research/journal/10479. Authors should submit their papers via the journal's online submission site http://www.editorialmanager.com/anor/ and should select the article type "SI: MCDM-SD". Submitted papers should not have been previously published or be currently under consideration for publication elsewhere.

Important Dates

Submission Deadline: 01 January 2016
