

RESEARCH SEMINAR IN EVIDENCE-BASED PSYCHIATRY

"Blinding"

Date: 29th September 2023 from 09.00 – 12.30 hrs

Venue: Psykiatrisygehuset i Slagelse, Bygning 3, 4 sal, Møderum 3.25, Fælledvej 6, 4200 Slagelse

An increased focus on high quality evidence-based individualized treatment in the psychiatry is supported by the report in 2015 by the Ministry of Health, Ministry for Children, Gender Equality, Integration and Social Affairs (now Ministry of Social Affairs and Senior Citizens), and the Ministry of Higher Education and Science. In the agreement for the coming 10 years for psychiatry strengthening evidence based treatment environments is described as important.

Region Zealand established the Center for Evidence-Based Psychiatry (CEBP) in 2018. The main objective of the center is to support and promote evidence-based practice in psychiatry by conducting systematic reviews and meta-analyses.

In this seminar, we will have a presentation on blinding in randomised trials by Post. Doc., Helene Marie Moustgaard and a presentation on blinding in non-randomised studies by Professor Asbjørn Hrobjartsson. Both from Cochrane Denmark & Centre for Evidence-Based Medicines Odense (CEBMO).

The seminar is free of charge. Register your participation no later than September 15th.
