

HISTORY OF CAPITALISM

Thomas Piketty: A brief history of equality. Lessons from Capital and ideology.

Den 15. september 2021, kl. 11.15-12.15

This lecture will be held via Zoom Livestream: <https://syddanskuni.zoom.us/j/66163498675>

Inequality, slavery and violence played a major role in the early rise of western capitalism. In later stages of development, however, it is the movement toward more equality in income, wealth, education and status which made increased and shared prosperity possible, especially during the 1910-1980 period. In this talk, Thomas Piketty will offer a new perspective on the history of equality and draw lessons for the future.
