

SMARTPOWERCONVERSION CONCLUDING SEMINAR

We hereby invite you to the concluding seminar of the Interreg project SmartPowerConversion. For three years, the project has focused on solutions within power electronics, batteries and digitalization for smart electrification upscaling in the Danish-German cross-border region. Join us at SDU-CIE in Sønderborg to learn about the project results.

PROGRAMME

- 10:00 Arrival, registration, coffee, networking
- 10:20 Welcome and brief overview of the
SmartPowerConversion project work
[Thomas Ebel, SDU, Centre for Industrial Electronics (CIE)]
- 10:30 SmartPowerConversion demonstrator results:
[SDU, CAU and HAW Kiel teams]
1. Power conversion
 2. Battery energy storage
- 12:00 Lunch, laboratory visit SDU-CIE – Latest facilities
- 12:50 SmartPowerConversion results within innovation
and business support
[Jan Cornils, WTSH & Gustav Nebel, Sønderborg Vækstråd]
- 13:30 Outlook for future SmartPowerConversion related
activities and follow-up initiatives in a Danish-
German context
- 13:50 Concluding remarks
[Thomas Ebel, SDU, Centre for Industrial Electronics (CIE)]
