

Exam Monitor

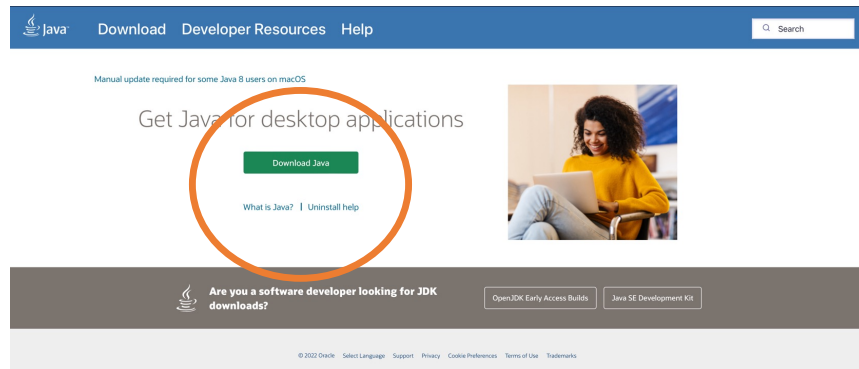

macOS Sonoma

Opdateret januar 2024

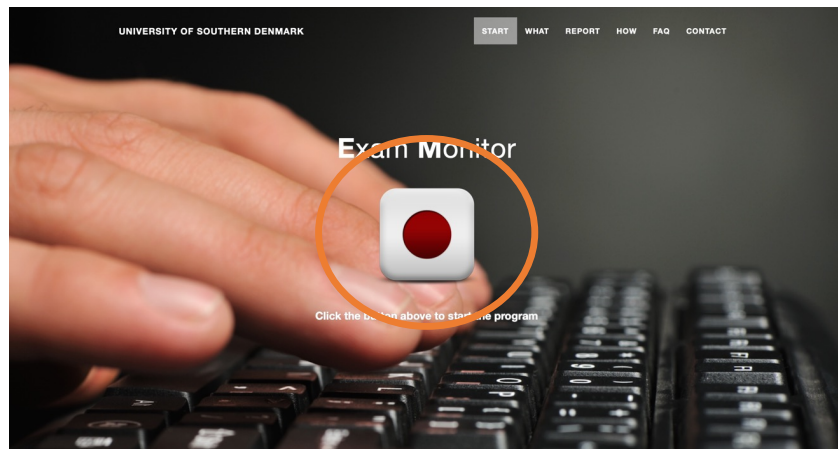

1

Start med at installér den nyeste version af Java ved at gå ind på hjemmesiden: Java.com

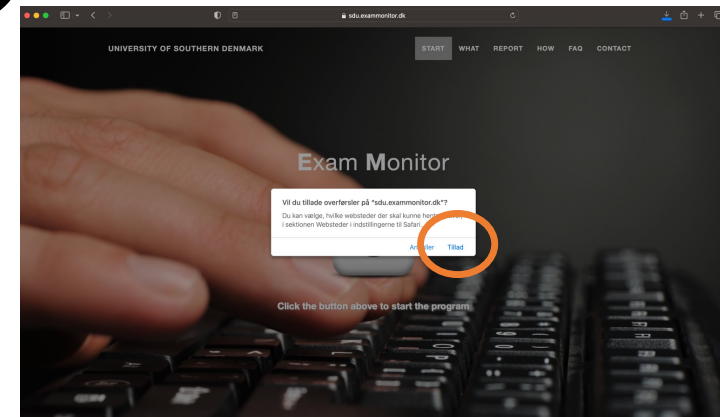

2

Start med at gå ind på hjemmesiden: em.sdu.dk. Klik på Exam Monitors logo for at downloade det

3

Klik på 'Allow'

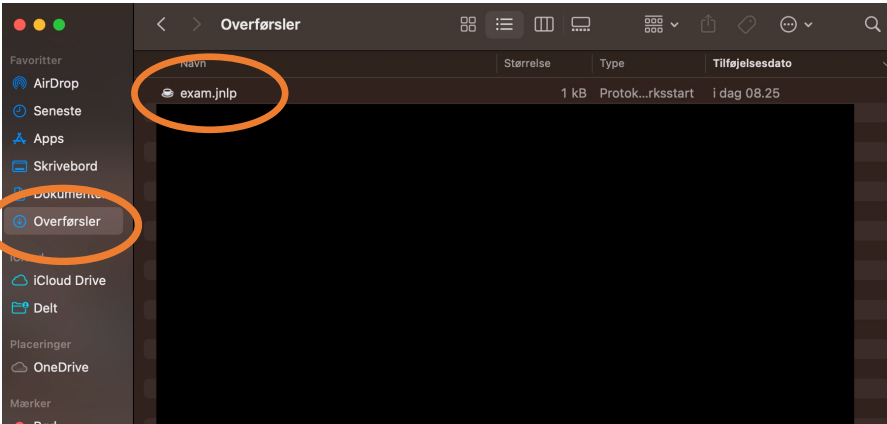

4

Åben 'Finder' på din Mac

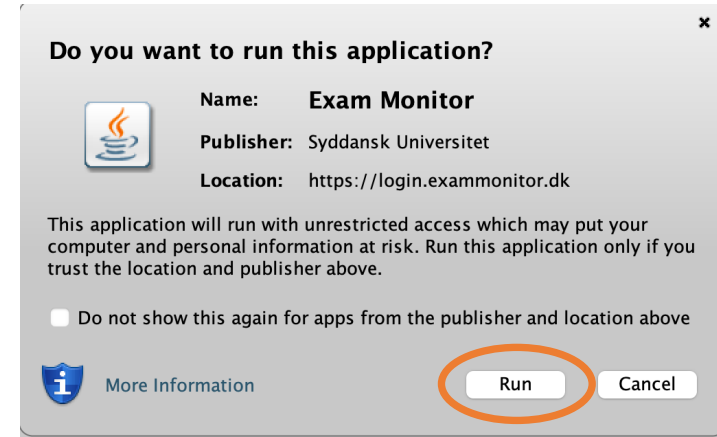

5 Klik på 'Downloads' og find filen 'exam.jnlp'

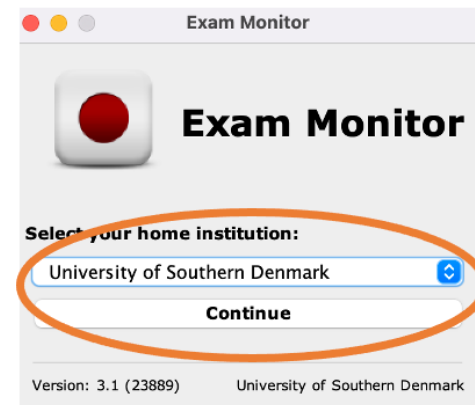

6 Højreklik på filen. Vælg 'Open with' og klik på 'JavaLauncher'

7 Klik på 'Run'

8 Væg din institution og klik herefter på 'Continue'

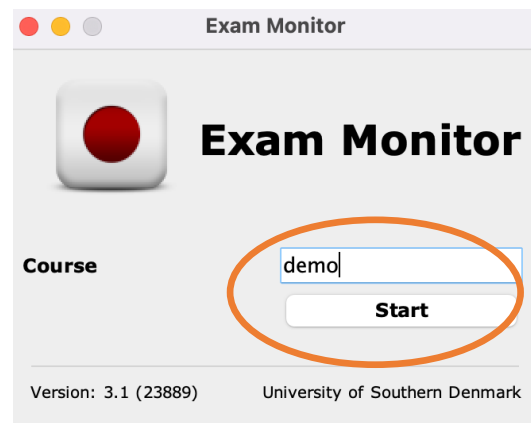

9

Login in med din SDU-mail og password. Herefter godkendes dit login

10

For at teste Exam Monitor før din eksamen, bedes du skrive 'demo' og klikke på 'Start'

11

Klik ikke på 'I confirm' før du har tjekket om den har taget det rigtige screenshot. På næste side kan du se det korrekte screenshot

Correct privacy settings

It is important and **your** responsibility that Exam Monitor is setup correctly on your machine.

Verify with the screenshot above of **your computer desktop** that other windows besides Exam Monitor are visible.

If screenshot does **not** show other windows besides Exam Monitor **contact an invigilator and request IT-support.**

You can retake the screenshot with the button below to verify settings are correct.

Screenshots used in this window will not be saved.

I confirm that my computer is correctly setup and that image above verifies these settings.

SDU

På de næste par sider, kan du se hvilke indstillinger, du skal lave for at få de korrekte screenshots

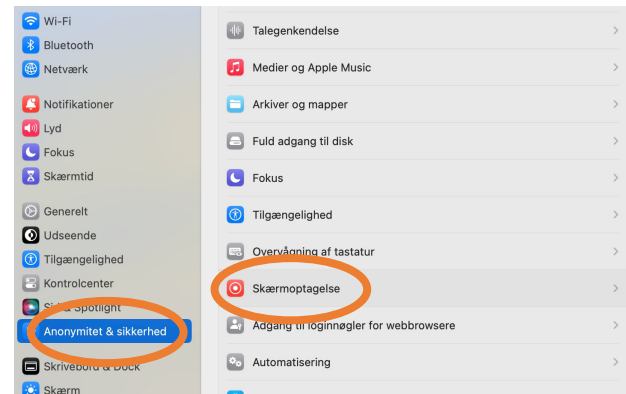

12

Klik på 'systemindstillinger...'

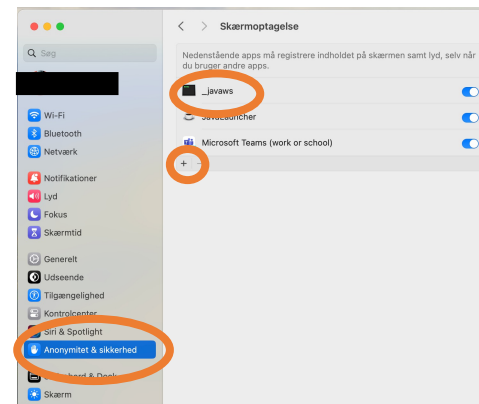

13

Klik på 'Anonymitet & sikkerhed' og klik efterfølgende på 'Skærmoptagelse'

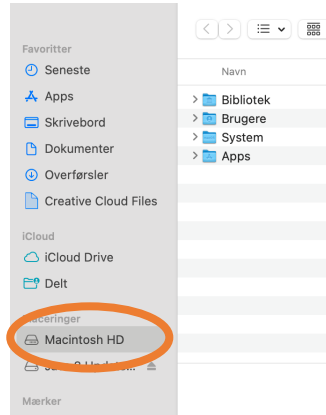

14

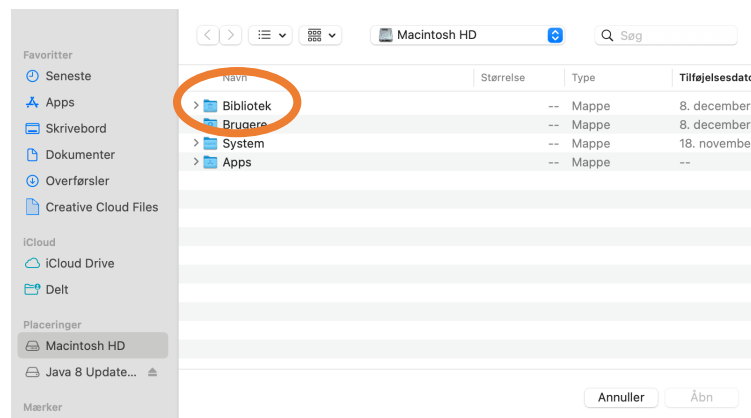

Du skal tilføje 'javaws' til din liste, ellers vil den ikke optage din skærm. Klik derfor på '+'

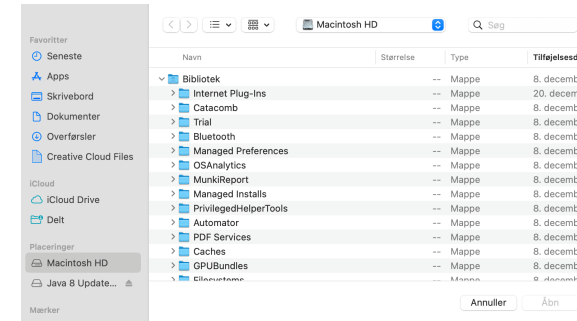

15 Vælg 'Macintosh HD'

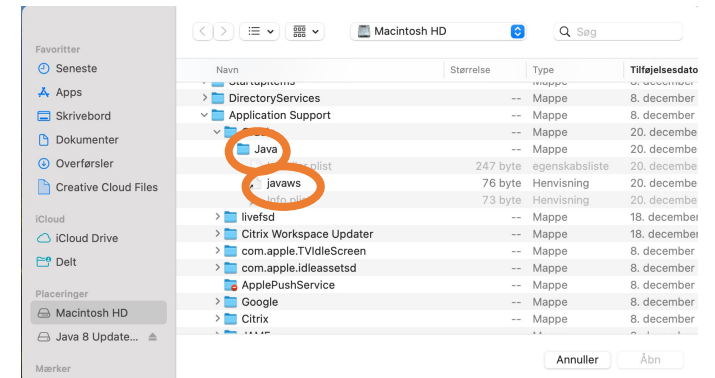

16 Klik på 'Bibliotek'

17 Så scroller du ned

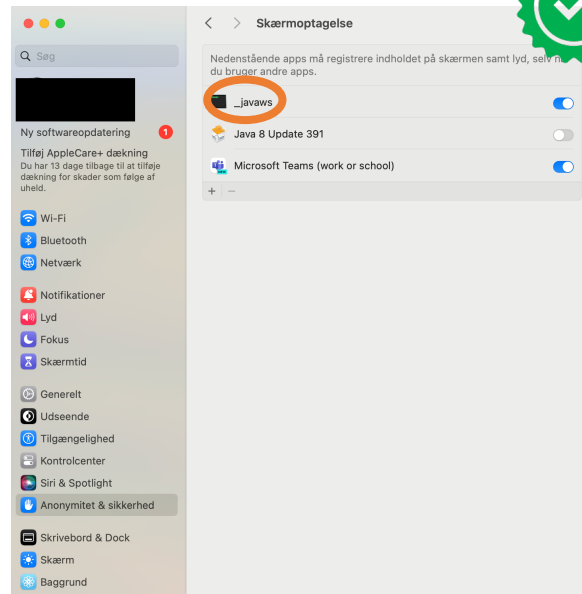

18 Vælg dernæst 'Java' og efterfølgende 'javaws'

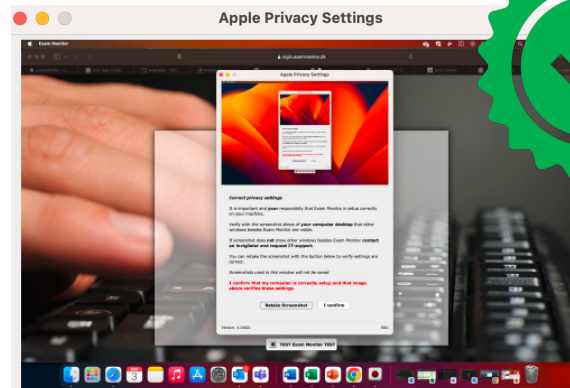

19

Nu er 'javaws' tilføjet, og din skærm bliver nu optaget

20

Når Java er slået til, kommer det fulde screenshot frem og du kan klikke på 'I confirm'
