

Title

You consider your language more than you think you do!

Teacher

Name	Mathias Bekker
Education	English

Introduction to class

Hi everyone!

We all use language in our daily lives, and we all use language in very different ways – both as individual people but also between the different people we are. I assume you talk differently whether you are with your friends in your spare time or at a dinner with your grandparents?

My name is Mathias, and I have the pleasure of introducing some thoughts about language and language use when I visit you with SDU Takeover. I will bring learning material from my own classes at university, and I also want to bring some tools and small assignments that you get to use during our time together.

Preparation (equal to max 15 minutes of preparation time)

Before we meet you should just relax 😊
