You can find the full list of Thematic Networks and Institutes here:

www.uarctic.org/thematicnetworks You can contact the network directly if you want to be a part of them. The networks can be used for workshops, conferences and writing papers.

Working Groups can contact UArctic for support and for promotion of the Steering Group.

North2north Student Mobility: There is a call every year in February and September for Students. This is a great opportunity for students to visit different Northern Regions.

Our ambition with the membership on UArctic are to build bridges between the Institutes at SDU to UArctic.

Experiences from the UArctic-Networks:

- Dewan has been a guest speaker once with partners from Norway/Finland and a group from Japan/Korea.
- Danita will visit the list of networks and when we get a full membership, use it to tap into funding.
- Carolin and James are planning a PhD-course next year. People and Students can be found in the networks.
- Ulrik will find out if the Dronecenter can be used in the network.
- Christina has held a PhD-course this weekend – funded by the UArctic.

Fee for Guest Researchers:

At the National Institute of Public Health we do not charge a fee for visiting scholars/students. We can most often offer them an office.

We might need to have an office with an employee, who can coordinate the work with the UArctic and get it to institutional level. We can be in one place, support the people and activities, be more visible. It can be at the new Climate Center at SDU. It can break down the barriers for the work.

Arctic Network for researchers at SDU – meeting in February 2022

We want to encourage Arctic Researchers at SDU to be a part of the mailinglist. Please forward a mail to jaol@sdu.dk.

At our first meeting in 2022, the Steering Group will discuss to meet at DIAS to set up an event for the Network.
