*Super-Girls of the Future: Girlhood and Agency in Contemporary Superhero Comics* (Routledge 2023) investigates girl superheroes published by DC and Marvel Comics in the first two decades of the twenty-first century, asking who the new-and-improved super-girls are and what potentials they hold for imagining girls as agents of change, in the genre as well as its socio-cultural context. Grounded in comics studies and informed by feminist cultural studies, the book contributes a critical and hopeful perspective on the diversification of a genre often written off as irredeemably conservative and patriarchal. *Super-Girls of the Future* is a key title for students and scholars of comics studies, visual culture, US popular culture, and feminist criticism.

**ALL WELCOME – students and staff**
