

The 2024 Saltin International Graduate Course in Exercise & Clinical Physiology

August 18 - 22, 2024

SALTIN INTERNATIONAL GRADUATE COURSE 2024 PHYSIOLOGY OF EXERCISE AND HEALTH

AUGUST 18 - 22, 2024, SANDBJERG ESTATE, DENMARK

THE SALTIN INTERNATIONAL GRADUATE COURSE

is a 3½-day residential PhD course that brings together 40 PhD-students and more than 20 faculty from universities in Canada and Denmark.

The course focuses on exercise and clinical physiology, integrating foundational knowledge with frontier research directions from basic science and applied approaches.

The 2024 course is a “joint venture” between three Danish universities (University of Southern Denmark, Aarhus University and the University of Copenhagen) and several universities in Canada, including the University of British Columbia Vancouver and the University of Ottawa.

ELIGIBILITY

PhD students with a relevant background are welcome to register. Enrollment is limited to 25 students from Denmark

PHD COURSE CREDIT
3.7 ECTS
