

# SDU DESIGN

## COLLABORATIVE NYTÅRSKUR/ OPEN SPACE

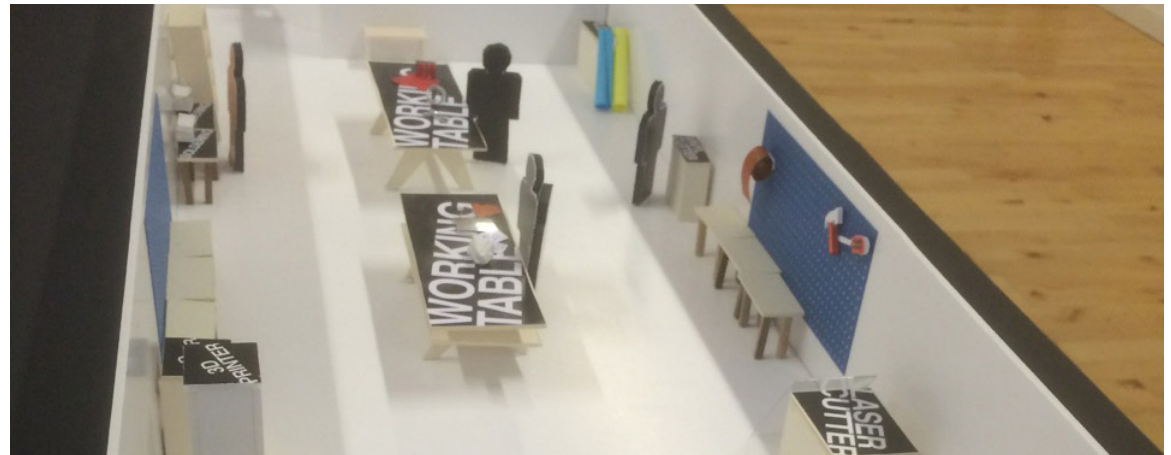

The first three Open Space seminars have been successful in suggesting themes for SDU Design seed projects, and for discussing other significant issues, such as design teaching and learning, and collaboration among PhD students.

At this moment quite a few activities are running, so this seminar will give room for information on what is going on. Towards the end there will be space for discussing these themes, and also for suggesting new themes relevant for developing the SDU Design initiative.

As usual, all colleagues at SDU and DKSD with an interest in design research and design education are most welcome.

Please register with Jytte K. Jørgensen before 9 January 2015: [jykj@sam.sdu.dk](mailto:jykj@sam.sdu.dk)

We look forward to seeing you
