

SDU DESIGN RESEARCH FORUM

OPEN SEMINARS

SDU DESIGN is a new initiative at SDU Kolding to enhance interdisciplinary collaboration in design research, also involving local partners.

We are happy to invite you to a series of seminars to meet the involved researchers and their communities of inquiry. The idea is for the researchers to exchange insight and 'research DNA' in a format that is accessible for people from outside the specialized research field.

We begin with four seminars each representing strong research communities that are involved in SDU Design.

The seminars are open for interested within and outside the University.

WEDNESDAY 13 NOVEMBER 2013 DESIGN CULTURE STUDIES

The humanistic design studies is an approach originating in design history and culture studies focusing on aesthetics and meanings. The broad and complex relations between designer, production, consumption and mediation are investigated as 'Design Culture'.

Anders V. Munch will sketch up this background and introduce our research program; Hans-Christian Jensen will investigate the Meanings of 'Design'; and Toke Riis Ebbesen will address The Ideal (e)Book as research topic for a future seeds project.
