

# SDU DESIGN RESEARCH FORUM

## OPEN SEMINARS

SDU DESIGN is an initiative at SDU Kolding to enhance interdisciplinary collaboration in design research, also involving local partners.

This spring we have initiated three seed projects to explore potential collaboration between researchers across the three departments. This meeting is a chance to discuss progress with each of the three project teams.

**The seminars are open for interested within and outside the university.**

### Small is Beautiful

Some design companies reject the dominant logic that every business needs to grow, they are quite content with staying small. How does this relate to designer identity? And is this OK in our society?

### Design Aesthetics

Aesthetics has continuously been central to the discourse on design, but has seldom been explicitly conceptualized and investigated in a trans-disciplinary context across university faculties. What happens when we cross disciplines?

### Spaces for Learning

How do we design 'spaces in-between' for researchers and students to learn from one another? We will explore this theme based on a new HUM model for active student learning.

Please register with [jykJ@sam.sdu.dk](mailto:jykJ@sam.sdu.dk) not later than 26 April 2014

We are looking forward to meeting you
