

SDU DESIGN RESEARCH FORUM

OPEN SEMINARS

SDU DESIGN is an initiative at SDU Kolding to enhance interdisciplinary collaboration in design research, also involving local partners.

We are happy to invite you to the third series of seminars to meet the involved researchers and their communities of inquiry. The idea is for the researchers to exchange insight in a format that is accessible for people from outside the specialized research field.

The seminars are open for interested within and outside the University.

SDU DESIGN engages researchers from three different faculties. We have invited seven PhD students who - in different ways and with different methods - work with themes that go beyond a single discipline. They will each briefly present their research and burning questions, and we will discuss what it means to do a PhD 'on the edge'.

Agnese Caglio:

Between design and social interaction: making sense of unfamiliar things, in familiar contexts

Winie Evers:

Using workshops with relational B2B partners to co-create business model change

Frederik Gottlieb:

Innovative relations: New meaning emerging in a local context

Mette Strømgaard Dalby:

Design Management in practice – bridging and facilitating design from thinking to doing

Bo Mortensen:

Selling with design tools

Hanne Bjerre Cowling:

Security technologies in a value-based design perspective

Ida Lildholdt Jacobsen:

Between design and software: analysing the GUI
