

EXPLORING INNOVATION

Section:
Technology
Entrepreneurship
and Innovation

Dear Invitee,

It is with great pleasure that we invite you to the inauguration of the MCI Innovation Lab.

Location: MCI, SDU Sønderborg, Alsion 2, M304

Date: Thursday, 4th of May 2017

Time: 14:00 - 16:00 + networking

The MCI Innovation Lab is a working space for creativity, product innovation, managing operations and commercialization. At the heart of MCI, the Innovation Lab also serves as a window to the other MCI labs.

By joining us at the kickoff event, you will have a unique opportunity to enjoy a hands-on workshop together with dedicated researchers. The event will give you a well-rounded insight into how the MCI Innovation Lab can help you to either improve your current business operations, develop new or better products or start a new business.

The MCI Innovation Lab provides high tech equipment, access to expertise, a novel meeting space, guidance, and hopefully the start of a fruitful collaboration with the MCI as a strong sparring partner.

Join us for the kickoff event by signing up at the registration portal for the event no later than Friday, 7th of April 2017. Please visit <http://tiny.cc/innovationlab> or scan the QR code for the registration portal.

Yours sincerely,

Silke Tegtmeyer

Associate Professor of Entrepreneurship
Head of SDU Technology Entrepreneurship and Innovation
University of Southern Denmark

Arne Bilberg

Associate Professor of Computer Integrated Manufacturing
SDU Technology Entrepreneurship and Innovation
University of Southern Denmark
