

# FROM TECHNOLOGY TO INNOVATION

---

12 years NanoSYD

A minisymposium, hosted by the NanoSYD Centre, U101, Alsion 2, Sønderborg, Denmark on 18th October 2019.

Preliminary program:

- 13:00 **Welcome**
- 13:15 *Nanoscale materials for solar energy conversion*, Kjeld Pedersen, Aalborg University, Denmark
- 13:45 *NanoSYD – IEAP Kiel: Ten Years of Successful Plasmonic Exchange*, Michael Bauer, Kiel University, Germany
- 14:15 *Collective phenomena in the system of silver nanoparticles*, Sigitas Tamulevicius, Kaunas University of Technology, Lithuania
- 14:45 **Coffee break**
- 15:15 *The third dimension of the periodical system*, Katharina Al-Shamery, University of Oldenburg, Germany
- 15:45 *Atoms, photons and surfaces*, Tomasz Kawalec, Jagiellonian University, Poland
- 16:15 *Photonics of hybrid materials and nanostructures*, Francesco Quochi, University of Cagliari, Italy
- 16:45 **Final remarks and refreshments**
