WORKSHOP

Antibiotics & Resistance Pig Meat Production & Consumption

Uppsala 8 May 2019

We would like to invite you to a workshop co-arranged by **Uppsala Antibiotic Center** and the **'Follow the Pig project'*** regarding antibiotics and resistance – and pig meat production and consumption. The aim of the workshop is to gather researchers investigating different aspects of this topic, with a special focus on the Swedish/Scandinavian pig meat case. Despite overlapping research interests, studies of these phenomena are carried out in fields and disciplines that tend to operate rather distantly.

The main goal of the workshop is simple therefore: to share knowledge and experiences, and to discuss research questions and approaches related to this topic.

The Workshop will be held at Uppsala University, at BMC, SciLifeLab,
Room E10:1307 (directions: <http://bit.ly/wspigroom>)

Welcome to the Workshop!

Please, register at www.bit.ly/wspigregistration

Alexandra Waluszewski, Uppsala University
On behalf of the organising committee

*Footnote: "Follow the Pig" is NOS-HS granted workshop project, coordinated by Kristin B. Munksgaard, Prof., University of Southern Denmark, Alexandra Waluszewski, Prof., Department of Economic History/ PI at UAC, Uppsala University, Aino Halinen, Prof. University of Turku, and Debbie Harrison, Prof., Norwegian Business School. The aim to investigate differences in the Swedish, Danish, Norwegian and Finnish pig meat production settings; including contextual differences, e.g. antibiotic regulations, economic logics and actor interests. This is the first workshop in a series of three.

PROGRAM

9.00 – 9.30: Welcome

Aim of the Day: **Alexandra Waluszewski**

A short presentation of Uppsala Antibiotic Centre, UAC: **Eva Garmendia**, coordinator UAC.

9.30-9.45 Coffee

9.45 – 12.00: Resistance awareness in research and media

Chair: Alexandra Waluszewski, Uppsala University.

9.45-10.30 **Anne Kveim Lie**, University of Oslo, Institute of Health and Society:
Resistance awareness – past and present.

10.30-11.00 **Hedvig Gröndal**, Uppsala University, Department of Sociology: *Alliances between veterinary and human medicine in early Swedish AMR prevention.*

11.00-11.20 Comments & Questions: **Daniel Normark**, Department of Economic History/Uppsala STS.

11.20-11.45 **Enrico Baraldi**, Uppsala University, Industrial Engineering and Management, and **Alexandra Waluszewski**: *The Pharmaceutical industry: part of the problems – and the solutions...*

11.45 – 12.45 Lunch

12.45 – 14.45 Antibiotics & resistance and Swedish pig meat production

Chair: Aino Halinen, University of Turku, Finland.

12.45-13.30 **Kristina Nordéus**, Swedish University of Agriculture, SLU
The Swedish ban on Antibiotic Growth Promoters (AGPs) – farmers, vets, consumers and the media.

13.30-14.15 **Marie Sjölund**, National Veterinary Institute, SVA.
Pig production in Sweden.

14.15-14.45 Comments & Questions: **Kristin Munksgaard**, University of Southern Denmark, **Debbie Harrison**, Norwegian Business School BI.

14.45-15.00 Coffee

15.00-16.00 Antibiotics & resistance, Swedish pig meat consumption

Chair: Aino Halinen, University of Turku, Finland.

15.00-15.30 **Gunnela Ståhle**, chair, Vi Konsumenter: *The role of the consumers – past and present.*

15.30 -15.50 Comments & Questions **Håkan Håkansson**, Norwegian Business School BI.

15.50-16.00 What's next?
